

CITIZENS AGAINST ENERGY SPRAWL

PROTECTING OUR COMMUNITIES FROM INDUSTRIAL ENERGY FACILITIES

INFORMATIONAL ASSEMBLY November 1st in Skaneateles

Are you concerned about the industrialization of your hometown?

Are you frustrated by the loss of Home Rule by Albany to decide what Green Energy looks like in your town?

Are you sick of NY tax dollars funding utility scale solar, wind and energy storage projects through NYSERDA, RECs, NYPA, Green Bank, and the associated rate hikes in place for future transmission?

Do you have concerns about intermittent and unreliable energy generation?

Do you value the health of and welfare of your neighbors and community? Pristine waters, DEC protected wetlands, prime farmland, wildlife habitat, recreation, tourism, dark skies, and your property values?

Do you want to learn more about the impacts to your environment, health, safety, and the true cost of renewable energy?

**SATURDAY, NOVEMBER 1, 2025 2:00-4:00PM
SKANEATELES FIRE BARN - 77 WEST GENESEE STREET**

Presentation by **STOP ENERGY SPRAWL**

Local grassroots organizations will share their experiences.
Elected officials will be available to answer your questions.

Space is limited. For questions or to register for this FREE informative assembly, please send an email to: help@AllianceToSaveTheFingerLakes.com
Walk-ins welcome on a first come, first serve basis.

TOGETHER, WE CAN PROTECT OUR COMMUNITIES, ECOSYSTEMS, AND OUR WAY OF LIFE
