

## **Required California Notary Journal Data**

Intended as a Study Aid

Data that needs to be written in your Notary Journal:

1. Date of notarization
2. Time that document was signed
3. Type of notarial wording/legal language used
4. Address where notarization took place
5. Title of document being signed
6. Date of document, defaults to notarization date if none
7. Name of signer based on their ID
8. ID number
9. Expiration date of ID
10. Issuance date of ID
11. Amount charged for notarization
12. Signature of person being notarized
13. Thumbprint of signer, if required

Pre-Printed Notary Journals may not be specific for data required for California, be very careful that you gather the required data even if you have to rename/or ignore column headings in YOUR Notary Journal.
