**ESTABLISH A DAILY ROUTINE FOR
WELL BEING & SELF-MASTERY**

CHETANA KRIPALU, MD

**FOUNDER/CEO
THE ANGEL WING, LLC**

This E-book (in PDF format) is not copyrighted.

ANGEL WING VISION STATEMENT

The Angel Wing, LLC is dedicated to human upliftment, self-mastery, and personal transformation via the development and implementation of diverse wellness programs. Integrated and complementary approaches are utilized in the development and implementation of meditation programs, educational seminars/workshops, publications, nutritional & physical fitness programs, personal accountability programs, and the quantum transformation program. All Angel Wing, LLC programs are free of charge to the public where diverse knowledge bases are utilized for program development. Participants from the general public at large can take advantage of these programs without incurring a financial burden. Such an approach promotes intrinsic motivation for self-development and self-mastery of each participant who can subsequently promote wellbeing and personal development to others.

Angel Wing's three major principles: Self-Mastery, Personal Transformation, and Human Upliftment. For more information, please contact The Angel Wing, LLC below:

DAILY ROUTINE LEADS TO SELF-MASTERY

Welcome to Angel Wing!

The Angel Wing team is very happy to present the 1st online 30-day workbook. We are truly honored that you have decided to go through the 30-day program. The establishment of a daily routine is foundational to ultimately achieving self-mastery. SELF-MASTERY is one of the three foundational principles around which Angel Wing has been created and continues to grow and develop. The other two principles are PERSONAL TRANSFORMATION and HUMAN UPLIFTMENT, which are intrinsically linked to self-mastery. The state of self-mastery is an extraordinary way of living one's life where balance, integration, clarity, and joy abide as one's natural state. To reach such a state, Angel Wing provides online programs, meditations, dialogues, and this 1st workbook to the public so that each person in society has an opportunity (without any financial burden) to reach a state of self-mastery and live to one's highest potential. To assist in this journey, establishing and following a daily routine of visualization, meditation, self-reflection, and contemplation are greatly beneficial.

Please note that this e-book has fully integrated web links for all materials you will need. If you want to write in a journal (either physically or online) you may do so. You may also create voice recordings using your phone as that may be an easier way to record your thoughts, ideas, experiences, comments, and questions. You may send all such materials (as per your wish) to theangelwing19@gmail.com. Angel Wing volunteers will stay in touch with you. Sending any such material to Angel Wing is optional. You may start Day # 1 at your convenience and decision.

Please also note that this e-workbook is available only to those who have agreed to do the 30-day program. Angel Wing also provides weekly online discussions and Q/A for all those who are doing the 30-day program. This will be held from 8:15 PM to 9:15 PM every Sunday, after the usual Sunday evening meditative dialogue that is from 7 PM to 8 PM.

Before starting this e-workbook, please listen to the following introduction from Dr. Chetana Kripalu (click on the podcast link below) and two introductory videos by Yoga Master Nimish Dayalu:

SELF-MASTERY & ESTABLISHING A DAILY ROUTINE (INTRODUCTION TO WORKBOOK # 1) - BY: DR. CHETANA KRIPALU (12 MINUTES)

INTRODUCTION TO MEDITATION – BY NIMISH DAYALU (VIDEO #1) (VIDEO #2)

Daily routine is one of the best things I have done in my life.

A daily routine helps us achieve a sense of accomplishment.

One can develop self-confidence and helps us cope with stressful times much better.

It helps relieve anxiety and be in a state of inner balance which is calmness.

The tools we use in our daily routine helps shift our baseline state of unrest to one of peace. It is very helpful to gain control of the day by which I mean that we can be much more creative daily. This happens since there is a shift in internal homeostasis. – Chetana Kripalu, M.D.
