

Product Information

Avail Dry
Fertilizer Enhancer

Quantity

2x2.5 jugs

Functions and Benefits:

- AVAIL Dry is designed for use with granular fertilizers to reduce phosphate fertilizer fixation
- AVAIL Dry sequesters antagonistic ions that tie up phosphate in the soil surrounding the fertilizer
- AVAIL Dry increases phosphate availability to the plant through-out the entire growing season
- AVAIL Dry is water soluble, biodegradable, and nontoxic

Rate:

2 qts per ton of granular phosphate fertilizers

Treat granular phosphates with AVAIL and granular nitrogen fertilizers with NutriSphere-N prior to blending together with other nutrients. Pretreatment of either the phosphorus or nitrogen would be recommended.

Do Not Use Avail SD In Dry Phosphate Fertilizer and Vice Versa
