

## Product Information

Avail SD  
Fertilizer Enhancer

**Quantity**  
2x2.5 jugs

### **Functions and Benefits:**

- AVAIL SD is designed for use with liquid fertilizers to reduce phosphate fixation in the soil
- AVAIL SD sequesters antagonistic ions that tie up phosphate in the soil surrounding the fertilizer
- AVAIL SD increases phosphate availability to the plant through-out the entire growing season
- AVAIL SD is water soluble, biodegradable, and nontoxic

### **Rate:**

2 qts per 99.50 gal of total fertilizer blend

AVAIL SD should be added to the liquid fertilizer blend after the phosphate fertilizer has been added, the suggested order would be: liquid P, AVAIL SD, liquid N and then NutriSphere-N.

**\*Do Not Use Avail Dry In Liquid Fertilizer and Vice Versa\***
