

Product Information

Agrotain Ultra
Nitrogen Stabilizer

Quantity

2x2.5 jugs
250 gal totes

Functions and Benefits:

- Agrotain Ultra is a more concentrated form of Agrotain
- The primary benefit of Ultra is a drier blend that improves handling characteristics in application equipment
- Controls volatility in urea and UAN
- Stabilizes N on the surface by preventing the urease enzyme from attaching to the urea
- For use on Urea and in UAN & manure
- Protects urea & UAN from volatility when surface applied and can be added to UAN with Instinct for ultimate N protection

Rate:

Urea- 4 qts per ton
28-32% UAN- 2 qts per ton or 1 qt per 100 gal

Agrotain Ultra controls volatility when applying Urea & UAN to wheat, No-till corn, sidedress corn (dribble or coulter inject), topdress corn (urea broadcast), and pasture.
