

# ERASE™

## Spray System Cleaner

ERASE™ is a powerful spray system cleaner that exceeds the capabilities of ordinary tank cleaners. ERASE emulsifies oily residues in tanks, sprayer lines and hoses while elevating rinseable pH to degrade vulnerable crop protection products.

Combined with good sprayer cleaning technique, ERASE virtually eliminates the risk of cross-contamination that leads to crop injury complaints, yield loss and a damaged reputation as a professional applicator.

### Product Information

- Advanced surfactant system that penetrates and removes dried-on residues left behind from incompatible tank mixes
- Emulsifier technology designed to solubilize oily residue build-up for easier purging of the system
- Stronger alkalinity builders that maximize rinseable solution pH levels to rapidly accelerate the breakdown of vulnerable pesticides
- Anti-corrosion inhibitors to protect equipment pumps, seals and plumbing

### Use Rates

- 2 quarts per 100 gallons of rinseate

### Packaging

- 4 x 1 gallon per case
- 12 x 1 quart per case
