### GENERAL INFORMATION

**KabaK Max** is a convenient premix of drift reduction technology and water conditioning agents that protects the performance potential of glyphosate and 2,4-D premixes or tank mixes from antagonistic metal ions found in hard water and leaf tissue while further reducing drift risk.

For use with Enlist Duo®: Enlist Duo may only be tank-mixed with products that have been tested and found not to adversely affect the spray drift properties of Enlist Duo. A list of those products may be found at [EnlistTankmix.com](http://EnlistTankmix.com).

### DIRECTIONS FOR USE
