

Website Development

Overview

Programme Phase	No. Months
Website Development	9 months

The New Business Start-up Programme will help new business owners to understand website development. As a new start-up owner creating a website should be fun and exploratory experience of how you would like your website to look.

During this phase support will provide new start-up owners in the creation of their business website. During the idea and brainstorming about the new start-up business website will focus on these areas:

- Domain name ideas
- Hosting of website with Strategic HUB
- Creating website pages
- Themes and pictures for the website
- Drafting content for the website page
- Logo design

A brainstorming session is to identify and understand the type of website required.
