AW6

Dedicated gate to efficiently park the AW5/AW6 models.

Combi ANGEL GATE
Normal specifications AG32N

Rear-type AW5 Series

The children will enjoy their ride as they can see the surroundings!

Combi ANGEL WAGON
AW51CC2 Antistatic specification

Face-to-face type AW6 Series

Reassuring for small children as they can see the faces of their parents!

Combi ANGEL WAGON
AW61CC2 Antistatic specification

Great capacity with the possibility to set a large basket

Basket dimensions (for AW5 and AW6)

*Items can be placed also to the front of the AW5 carts.
Length: 410 to 510 mm, width 300 to 360 mm, height 270 mm or less
Baskets with dimensions other than the above cannot be used.

Backrest adjustable in height

3-position (120°, 135°, and 150°) reclining backrest to adapt to the children's bodies and growth.
*The seat must be used in the upright position if the head of the child is higher than the backrest.

Large seat that can accommodate children up to 4 years old

A seat that surrounds gently the bodies of small children and large enough to be comfortable for bigger children.

Bacteria and virus-resistant handle.* The seat unit can be cleaned with sodium hypochlorite or alcohol.

The handle is not resistant to all types of viruses and bacteria. The purpose of the virus and bacteria resistance treatment is not to prevent or heal diseases.

Conductive right and left casters on the rear side to reduce static electricity.*

The antistatic specification prevents discomfort to the users and children.

The color of the conductive casters (light gray) differs from the color of the low-noise casters (dark gray).
