

Vision: Towards a Utopian Society

From a Higher Perspective our reality could be viewed as a Holodeck the size of the whole Universe. I see me, you & everyone as participating in this Cosmic Planetarium Show that's powered by a Cosmic sized Quantum Computer better known as: Source, Cosmic Consciousness, GOD, the Oversoul of all oversouls.

Let's consider the perspective of all the world's leaders, in banking, in education, in media, in politics, in government, in commerce, and in whatever roles each of us play in "All the worlds' a stage." Great & small and everyone in between, we're all in this together. From these perspectives everyone should ask themselves:

1. "To what extent am I part of the problem?"
2. "To what extent can I contribute to a solution?"
3. "How can we all, respectfully, work together?"

Write down your current thoughts because, after pondering the content of this document, it might be hard to remember your old perspective.

"A mind, once stretched by a new idea, never returns to its previous dimensions."

-- Ralph Waldo Emerson

Our so called, leaders, must stop quarrelling like teenagers from a severely dysfunctional family and realize "Huston, we have a problem." "We are running out of breathable air, our water got contaminated, and food is running short. We have to come down now, even if we have to descend through the eye of the storm!"

First, *herein*, let's grant gratitude, credit & honor to where it is due:

- **Steven Covey** for his "7 Habits of Highly Effective People",
- **Anthony Robbins** for His many books, videos, immersive events, his example, and
- with **Dean Graziosi**, for their Knowledge Broker Blueprint Course,
- **Bashar** for the 5 Immutable Laws & his 5 "Through the Eye of the Needle" steps,
- **Abraham Hicks** for the 5 steps for the Law of Attraction.
- **Robert Edward Grant** for his leadership by example, importance of geometry, and for extreme precision of Reciprocals.
- **Alan Green** radiates heart-felt kid-like curiosity. An example of how to gently & precisely take us along on your fascinating journey. Your quest for deeper truth and understanding leaves us in awe.
- **Jesus Christ** for being a living example of Unconditional: Forgiveness, Acceptance & Love.

I've studied many thought-leaders in success & self-improvement. Steven Covey's "Seven Habits of Highly Effective People" asks What is urgent & important -- this becomes Priority One. Given the dyer world situation & the Dalai Lama's request soliciting a course correction for Planet Earth, here are my thoughts:

Evan Carmichael, whose 1-word "Believe" is central to his life's mission, challenges others to discover their 1-word purpose. Given our world's dire situation, I wondered what word could possibly unlock the door that imprisons our hearts & minds?

"**RESPECT**" emerged as my power word. Injustice results whenever someone or some people group "disrespects" another. This puts victims in a position of resentment and in need to forgive. If they choose to hold onto resentment -- they perpetuate their victimhood.

If they rise above it, they can offer the Gift of Forgiveness, thereby taking control of the narrative. It is now up to the "forgiven" to show respect by accepting the gift of forgiveness or not. The world is watching. They must acknowledge that they are sorry that their "disrespectful" words or actions were hurtful, OR they MUST, by their subsequent actions, make amends or Pay-It-Forward -- that is to say, they must forgive the debts and/or transgressions of others. Herein, we will apply the parable of the unforgiving servant to today's world. (Matthew 18:23-35)

Vision: Towards a Utopian Society

First, credit goes to the Wisdom Teachings of Jesus Christ, and Bashar (as channeled by Darryl Anka) and to the collective consciousness of Abraham Hicks (as channeled by Ester Weaver.) Bashar gives us his 5 immutable laws. Abraham Hicks gives us awareness of how, moment-by-moment, as we master the Law of Attraction, our feelings reflect how much we are in alignment with who we really are.

Jesus: Faith & Faithfulness	Bashar: 5 Immutable Laws	Abraham Hicks: Law of Attraction
1. <i>Keep Asking</i> and it shall be given. 2. <i>Keep Seeking</i> and you will find. 3. <i>Keep Knocking</i> and it will be opened. 4. Do unto others as you would have them do unto you. Respect! 5. Love your neighbor as yourself. 6. Love God with all your: <i>heart, soul, mind</i> .	1. You exist, there is nothing you can do to change that. 2. Everything is here and now. 3. One is the all; all is the One. 4. What you put out; you get back. 5. Everything is changing except these 5 laws.	1. Ask. 2. Source answers. 3. Get into the receiving mode; don't resist the flow. 4. Mastery of step 3. 5. Maintain positive attitude regardless of circumstance.

More recently, in Bashar's "Through the Eye of the Needle", he recommends these 5-steps:

1. **Forgive all:** no matter what, no more waiting for others to change.
2. **Forgive yourself:** for having put yourself in this position, move into a preferred emotional "state".
3. **Let go of your past self:** don't inform your future self about your past experience. Observe the past but don't be a participant of it.
4. **Inform yourself from your future self:** visualize the "future you". The higher mind calls you through passion, *let yourself be pulled from your future self. Feel that success Now!*
5. **Be in the present:** this way you will be more the true you, your indestructible you!

We Each Get to Judge Ourselves

In fact, subconsciously, moment-by-moment, we are continually judging ourselves from within – this shows up by how we feel about how we treat others and by how we regard ourselves. Disrespecting ourselves or others lowers emotional frequencies shifting towards lower energy negative feelings. Respecting everyone raises our emotional frequencies -- manifesting as energized positive feelings.

The three solution steps I presented were derived as follows:

1. **"To what extent am I part of the problem?"** As Bashar likes to put it -- we exist. We are all part of all there is. During my times of deep meditation, I seek my inner most being, a point of equilibrium, like the eye of a storm. This place of peace and tranquility is connected to my Higher Self. My soul, your soul -- we all are "the many faceted expression" of the Oversoul of all over-souls.
2. **"To what extent can I contribute to a solution?"** This comes from studying Tony Robbins & Dean Graziosi materials -- namely, their 3-step marketing outline: **Hook-Story-Close**. **Hook** is a question that is already in the mind of your prospective client/customer. **Story** is an interesting way to capture their imagination as your story answers their outstanding question. **Close** is a call to action - to inspire them to make a decision (a resolution backed by powerful emotional motivation), and in that moment, to take their 1st action step.
3. **"How can we all, respectfully, work together?"** My root-cause analysis of injustices in history revealed that whenever one people group (seeing themselves as separate from other people groups) looking upon others with *disrespect*. Thus, "Respect" emerged as the central idea leading the way to resolve all conflicts. We are all in this together -- great & small and everyone in between.
We must respect each individual as a stakeholder in their own future.

This is All About Sustainability and Population Self-Control: I've imagined the various perspectives that the ruling elite might take. Sadly, I see they lean towards Luciferian philosophy of extreme "service-to-self". This evil ideal appears to be the foundation of far-Left communism and of far-Right fascism. I sometimes reflect upon how these Elite Groups might look upon "the masses". It seems to me that "The Matrix" movie expresses their sentiment in [Mr. Smith's speech about his assessment of "our species"](#) spreading like a virus.

Seems as if Rockefeller's WHO partnered with the Chinese Communist Party.

Communism MUST realize that their relentless "forced submission" disempowers those they wish to dominate. This approach fosters resentment when it undermines individual free-will and impedes self-empowerment. It is ultimately destructive to human psyche and productivity & human potential. Time to drop their 3-step mantra: to deceive, to infiltrate, and to dominate. What would replace this? *Read on.*

To be a government of, by & for the People means everyone takes responsibility for self, their families (procreation) and their sphere-of-influence (peer groups). Fascism calls for a government of the Corporations, by the Corporations and for the Corporations. Corporations need people and it is **people (with heart & soul)** who MUST define corporate mission statements. It always starts with individuals who share a dream, a **set of ideals**, powered by a driving emotional force to gather and mobilize resources.

Individuals & groups MUST be respected for their efforts,
rewarded for their contributions and
everyone gets to celebrate achievements along the way.

The far-Right 3-steps process has been: Problem, Reaction, Solution. Replace this by asking everyone "What resolutions, well thought out policies, would eliminate the original root-cause of our self-inflicted problems?"

Extremism has been the culprit. Let's drop extremist views and seek middle ground. From this middle ground we need to see each other's viewpoints. Like a talent search show, we seek ideas from the masses. In whatever area anyone has expertise let them present their ideas and technologies that help others along the road to success. The idea is the seed. One plants, others care for and harvest, everyone benefits. Let's support them by contributing our attention to ponder solutions, our time to act, to apply our expertise, our resources, all orchestrated by all well thought out Smart Contracts. A contract with hooks to amend mutually agreed course corrections.

I'm talking to you **Banksters**. You have been hoarding all that debt to yourselves. It does you nor anyone else, any good if you de-populate the slaves that were going to make those excessive mortgage payments and rents. When you let debts exceed one generation's ability to pay, that's when you went *way too far*. Now everyone reading this knows whose responsible. Now it's time to wise up and #Pay-It-Forward by phased forgiving 25% to 50% of all debt starting at the top and letting it penetrate down to individual mortgages, leases, and rents. Property tax leaches will have to adjust. Properties values will adjust. Then every few months forgive another 50% of what's left until everything stabilizes. You'll still be the richest and most powerful people in the world, only you will have earned the respect of the masses. You'll go down in history as super heroes, rather than, as super villains.

No doubt this will take the commitment of vast resources. The key to vast **resourcefulness** is to engage everyone to align with the overall goals -- population self-control & supply chain without polluting the environment. We must respect & honor all proposed solutions. The Elite MUST STOP suppressing alternate

energy technologies and homeopathic low-cost natural remedies. A multi-disciplinary approach would most rapidly engage the widest adoption while spreading supply chain risks.

It is no longer sufficient to look after just our own family's needs. Our kid's whole generation needs to survive before we can hope our grandkids could inherit a world that can thrive. Our Supply Chains must be protected. Workers in those supply chains have families too. We must learn to cherish their livelihoods as much as our own families. We are all in this together.

The Donkeys and Elephants in America have to stop the blame game and start showing each other respect. The Left-leaning Media needs to respect their voter-base by not using them as pawns in their Global Monopoly game being played with chess-like strategies. My assessment of the Media and the "Powers that be Imploding" as I see them realizing that their empires -- built on lies & disrespect -- have doomed themselves to extinction. Luciferian philosophy is clearly leading all us Earthlings towards some Armageddon scenario. Time to abandon those "service only to self" and focus on agreeable end goals. Then, rather than insisting on "our way" is the only way to get there. We ask the world, "Does anyone have any better ideas on how to curb the population, provide for everyone's needs, respect the Planet, and reward & celebrate lives who contribute value. For democracy to work, the education must focus on empowering people how to think (not what to think) while promoting high moral values and ethical conduct.

Every planetary civilization, before stepping off planet to meet their stellar cousins, must first learn to live within their own means. This means achieving a balance between Population and Supply Chains while achieving sustainable harmony with their ecological environment. Our current world situation desperately needs solutions to be presented and rolled out.

Does the Criminally Insane run our Medical System?

The United States DOES NOT have a health care system -- Big Pharma preserves disease, offering to just manage symptoms all-the-while creating worsening side-effects. Insanity. The FDA, CDC and other agencies are, apparently, being run by descendants of Operation Paperclip Nazi scientists (who, in their experiments, grossly disrespected their imprisoned "subjects."), and, after the 1952 Washington DC "UFO fly-over" by the Antarctic German Fleet, it was then negotiated with President Truman & Big Oil, that in exchange for keeping free energy and antigravity technologies secret, that their own people would occupy key positions in government and corporations. Nothing wrong with being [Heinrich Himmler's grandson](#) unless you subscribe to Nazi policies. Who else seeking power follows Hitler's play book. (Blame the opposition for doing exactly what they themselves are guilty of. Tell a lie that big enough, long enough until people start believing the it.

Why would the Population Control Think Tanks roll-out such an awful plan? Perhaps it's because they are secret crimes are worthy of indictment. It's not hard to imagine them saying, "I'd do anything to stop from being exposed for our crimes against humanity -- the human trafficking, child sex slaves, adrenochrome addictions and their Satanic ritualistic human sacrifices. Once someone is lured into THAT club -- the club completely controls them.

Spiritual Anti-Weapon -- "What you put out, is what you will get back."

As for those guilty of Human Rights Violations, I'd recommend **one**, or *both*, of the following options:

Option 1: Publicly admit to their crimes **or...**

Option 2: Pay-It-Forward: For if they are forgiven so much,
they must also forgive other's their debts and transgressions.

Vision: Towards a Utopian Society

ISV: (Matthew - Chapter 18:23 - 35) #Mat18:23

(23) “That is why the kingdom from heaven may be compared to a king who wanted to settle accounts with his servants.	In heaven you can experience forever in a moment of time. We each will have a chance to review our own lives. For you, will there be mostly regret, remorse, or shame? If so, you will have created hell for yourself. For good hearted “respectful” people who aspire to Christ-consciousness there will be joy, bliss, excitement & rejoicing. Given 20:20 hindsight, I can just imagine Jesus asking the world, “So, ... who’s in charge here? “
(24) When he had begun to settle the accounts, a person who owed him 10,000 talents was brought to him.	A: “I Am!” responds the Illuminati Councils, the World Bank & IMF, the Rothschilds & Rockefellers, Royal Bloodlines, Deep State Globalists, all the Presidents & Kings, all Congresses & Parliaments, secret societies and Corporate Boardrooms. Jesus asks, “What about this 1-Quadrillion in debt?”
(25) Because he couldn’t pay, his master ordered him, his wife, his children, and everything that he owned to be sold so that payment could be made.	Given the likelihood of some self-inflected Armageddon scenario, the Elite would have to judge themselves unworthy to manage a planet! Now’s a good time to reflect upon how you all grossly mismanaged this planet: destroying the ecosystem and turned real estate from being an asset into a place to store more debt than value. The Elitist have sewn to the wind and are now reaping the whirlwinds.
(26) Then the servant fell down and bowed low before him, saying, ‘Be patient with me, and I will repay you everything!’	Whoever is running the slavery/drug trafficking businesses and their customers will judge themselves. Injustice happens whenever, anyone is <i>disrespectful</i> toward someone or some group. This mental perspective of “duality” causes division. When we treat others as being separate from ourselves or from our family, this plays into the Puppet Master’s divide and conquer tactic.
(27) The master of that servant had compassion and released him, canceling his debt.	Option 1: to publicly accept forgiveness for said sins & crimes. “Oh, we only kidnapped a few kids.” Q: Were you being respectful to them and their parents? A: “Opps! We can’t admit to even a few of the bad things without implicating ourselves of far worse deeds.”
(28) “But when that servant went away, he found one of his fellow servants who owed him a hundred denarii. He grabbed him, seized him by the throat, and said, ‘Pay what you owe!’	Option 2: To accept the gift of unconditional forgiveness by acknowledging that acceptance by your subsequent actions. We #Pay-It-Forward by forgiving transgressions & debts. If “those in charge” fail to do so, their actions will judge themselves. Real Estate values have been artificially inflated so that rents, mortgages & taxes could be increased. That only works temporarily when the economy supports high salaries.
(29) Then his fellow servant fell down and began begging him, ‘Be patient with me and I will repay you!’	Be slow to judge. To what extent are “those in charge” part of the problem? The derivative debts far exceed what is possible to pay. Responsibility for this enormous problem clearly rests at the top of the truncated pyramid.
(30) But he refused and went and had him thrown into prison until he could repay the debt.	Answer: To the extent that you measure out judgment upon others you set the standard by which you are judging yourself.
(31) “When his fellow servants saw what had happened, they were very disturbed and went and reported to their master everything that had occurred.	Similar to 2300 years ago in the book of Daniel. When Belshazzar grossly disrespected the Hebrew sacred vessels.

Vision: Towards a Utopian Society

(32) Then his master sent for him and told him, 'You evil servant! I canceled that entire debt for you because you begged me.	Daniel 5:24: MENE, MENE, TEKEL and PARSIN. These are the meanings of the words: MENE: God as audited your kingdom – and has ended it.
(33) Shouldn't you have had mercy on your fellow servant, just as I had mercy on you?"	TEKEL: You've been weighed on the scales—and you don't measure up.
(34) In anger his master handed him over to the torturers until he could repay the entire debt.	PERES: Your kingdom has been divided and will be given to the MEDES and PERSIANS.
(35) This is how my heavenly Father will treat each one of you unless you forgive your brother from your hearts."	The those with Christ minded & hearted aspirations, you already know whose example to emulate. For those who sing "Imagine there's no heaven ... No hell below us." Your choices can make Earth: heaven or hell. The world is watching.

Their New World, now in Dis-order, is headed towards becoming a mess too big to clean up. They sowed to the wind and now are reaping the whirlwinds. There is a way out, but everyone will have to work together. Everyone will have to put their political leanings aside. The CCP, and their Leftist Media & Google Dragon Fly Project forgot WHY it is that they want to dominate all your time & attention – to harvest your emotional energy. Is it just to Dominate? But to what end? A world in ruins? Who's going to clean up the mess from their plans gone out-of-control?

The Way Out

If this idea were implemented on our planet, it would stabilize societies all over the world. Here's how:

The derivative debt market -- the \$600-\$800 Trillion is debt is simply **FICTION**. It is uncollectable, because their plans result in a dramatic population reduction, not enough slaves to pay the debt. (If the Elite roll out their sterilization vaccine that would spell out the end of humanity on Earth.) Selling the next generations into debt slavery is an example of gross mismanagement. "Profit" should be measured in society on a whole becoming healthy, happy & sustainable. That is to say, each generation learns how to live within their means and hands off to the next generation a manageable situation.

I recommend that the Banksters write-off 25% to 50% of the derivatives market and let this debt forgiveness propagate down in proportionate reduction in mortgages, rents, fuel costs. In time, subsequent 25% reductions of what's left could be rolled out, these actions would level out the economy and restore sanity to finance.

We are at the dawn of an era where distributed crypto technologies offer freedom from manipulation by the few. We have a chance to emerge as a society which will respect and empower everyone who wants to be part of the solution.

Let's have everyone get on board with this idea of unconditional forgiveness -- offered as a gift. The receiver of this gift is not obligated to accept such a gracious gift. They must confront the two conditions for in their decision they are judging themselves. Condition 1: Appreciate forgiveness. Condition 2: Pay-it-Forward. They either ruin their reputations and family names – or their generosity wins the hearts and minds of the people. Everyone wins.
