

2015 HASCO Report Card

The Results Are In!

After every training course we deliver, HASCO conducts anonymous post-training surveys, to measure how well our training and trainers are received by participants.

We compile this data into a Post-Training Report, and include ALL confidential comments made by the participants, verbatim. This report is sent to the person who arranged for the training session, so they can see what their workers thought of our training...the good, the bad and the ugly.

Here is our report card for ALL training conducted in 2015. We're pretty proud of it!
