## "Mona M Malbranche's Message"

President's Words January 2021

**We hold these truths to be self-evident "that all men are created equal". That they are "endowed by their Creator with certain unalienable rights". Among these rights are "Life, liberty, and the pursuit of happiness."**

**We cannot discount these words, for they are facts. A huge number in our society have chosen to ignore these facts in order to retain control or gain real power.**

**America was made possible by the many immigrants who arrived on its shores in pursuit of their stolen rights. It began with the English and the Spaniards who enslaved the Africans against their will. Jews, Irish, Italian were persecuted by tyrants/dictators; therefore, left their homeland. The Chinese, Japanese, Muslim, Caribbean, Cuban, Mexican, & Korean peoples left in search of peace. We are the founders and the settlers of the beautiful land and people we know and love - America.**

**It is inconceivable that a group of dissatisfied people want to claim this country as their own and move the clock back several centuries. Our Constitution written by our *framers* provided guidelines by which we would protect these rights. We have made a lot of progress and we must maintain the course. We cannot allow any groups to raise havoc or disenfranchise another.**

**Greed and evil have taken the place of pride, decency, dignity and safety for others. Have we become like animals in the jungle; survival of the fittest? Are we walking toward a cliff? What can we do as a party, as a small group, & as individuals to change the dangerous paths that the country has headed down in recent years? We do have some options. There ARE some solutions:**

- 1. Tough love**
- 2. Indictment and punishment with no exception**
- 3. Strict rules and regulations as well as sanctions**
- 4. Oversight and collaboration**

**With all of these in place, people will perhaps begin to feel valued and protected.**

**On January 20th, we watched with great pride as the 46<sup>th</sup> President of the United States was sworn into office. We beamed as he promised to respect and uphold our Constitution. Joe R. Biden became our President and Kamala Harris, our first woman Vice President - and notably the first black woman Vice President. It was a celebration for all of us. The world waited with baited breath, as he spoke and invited them back, as our friends and allies. We were all eager as Biden, Harris and our new COVID 19 team began sharing our data to combat Covid-19. This administration will respect the Constitution and protect its citizens. Hope and promise are alive again, within our minds, hearts, and souls. For this and so much more, I say, "Thank God!"**

**Be well! Be safe!**

## **RANDOM THOUGHTS:** by: Geoff Grosky. Editor

*It's absolutely crazy, that the dates we highlighted last month were so incredibly significant, in this nation's beginning of 2021 history. We began the month with the January 5th, State of Georgia's two run-off elections, for US Senatorial seats. All-time history in our just to the North, neighboring state, showed that the "red Georgia peach state" has seldom elected ONE Democratic Senator... TWO being almost unheard of. In fact, in run-off elections, Democrats have always fared even worse. Darkening the Dems' prospects even further, per some prognosticators, was that of the two Democratic challengers, one was a local Black minister, who preached in the same church that Martin Luther King, Jr.. Raphael Warnock had never before run for any political office. The other Democratic candidate, was of the Jewish faith - Jon Ossoff. Both facing incumbents, the challenge of that day was most daunting. Winning one of the two seats would have been satisfying in its own, for a number of reasons - BUT, this was no ordinary contest season. With the November elections behind us, the Republicans held a 50-48 lead in the US Senate. If the Republicans held both of those seats, or even just one, they would maintain control of the US Senate, and Mitch McConnell would hold his Senate Majority Leader position for the coming two years. If the two Democrats, Jon Ossoff and the Reverend Rafael Warnock, were both to be victorious, control of the Senate would switch to the Democrats and to a new Majority Leader, Chuck Schumer. The Democrats pulled off an upset of biblical proportions, with two wins. The new Senate now has a 50/50 split between the two parties, but with Vice President Kamala Harris casting a tie breaking vote, the Democrats hold the advantage in the US Senate and in ALL of its many power-wielding committees.*

*With the taking control of the Senate, this leaves the Democratic Party in charge in the White House, the US Senate, and the US House of Representatives. THANK YOU GEORGIA!!!!*

*On the very next day, January 6th, the country was scheduled to have the official counting of Electoral votes, a traditionally non-partisan gathering, with its predictable exercise in the process of formalizing the President and Vice President Elects, at the Capitol Building. The process was an accounting and certifying of each state's results of the past November's election. The still in office, Trump Administration had undergone nearly 100 court challenges, with disastrous results for Trump and the Republican party. Not withstanding those losses, Trump and a number of Reps and Senators fought on, through a series of lies, claiming massive fraud. From Presidential tweets and speeches, to Congressional lectures, to media sites on conservative television, alt-right websites, to near-fascist meetings of para-military, White Supremacy, and Anti-Semitic groups, in Washington, DC and every corner of every state.*

*During that same period on January 6th, Donald J Trump, had one ace left up his sleeve. He scheduled a rally, not far from the US Capitol Building. Speakers like Donald Jr and Rudy Giuliani spoke prior to the President, riling up the "base" with provocative challenges to Biden's win and even more terrifyingly provocative challenges to the crowd to take it in their hands to "STOP THE STEAL." The now former President, Donald John Trump took to the dais, and changed our nation's history. Trump spoke to an already frenzied crowd, and told the "Save America Rally attendees, in no uncertain terms, that "Our*

country has had enough! We will not take it anymore, and that is what this is all about..." And then the President challenged his followers to go to the Capitol Building with him to set the Vice President, Mike Pence and the Congress straight. This began an insurrection-type attack on the building, its law enforcement officers, and the Senators and House Reps and their staffs, and even families. The rally's intruders, broke doors and windows, and physically attacked security forces, to gain a violent access to the Capitol. As a result, five people lost their lives including a Capitol Policeman, as our US Congress had to be hurried from their chambers, within the "People's House, to hide in locked rooms, behind barricades of furniture, in fear of their very lives. Calls from the VP and Congress, crying for immediate help from the National Guard to the Defense Department(s), leading up to the Pentagon, and even the President, himself appeared to fall on deaf ears, for a period of nearly two hours. An unprecedented attack on our very Democracy could have resulted in the hanging of VP Pence and/or assassination of Nancy Pelosi, Chuck Schumer, Adam Schiff, or other leaders of both parties. The investigation into this cowardly and heinous attack, and its subsequent arrests and trials will likely go on for many months, if not years—as regards the incitement by political allies of Trump, and the actions of conspiratorial leaders and the many equally guilty followers who charged the Capitol.

On January 13th, exactly 1 week after the domestic terrorist attack at the Capitol, and exactly 1 week before inauguration of President Biden and VP Harris,... the US House of Representatives voted to impeach President Donald J Trump for a second time in 13 months. The charge was "incitement of insurrection against the United States Government," as regards his words and actions leading up to and through the January 6, attack on the Washington, DC Capitol Building. The vote for impeachment was 232 - 197, with particular note that in a mostly partisan vote, that there were 10 Republicans crossed the aisle to vote in favor of Trump's impeachment. One week before he was leaving the Presidency, Donald Trump became the first ever President to be impeached twice.

On January 20, 2021, while our National nightmare did not come to a complete close, it took a sort of hiatus, in order that the nation could swear in our new 46th President, Joseph Robinette Biden and Vice President Kamala Devi Harris. A far from the norm, it was an inauguration celebration - complete with past Presidents, politicians and families, celebrities, poets, and the sights and voices of people of all ages and colors, which culminated with a grand fireworks display, lighting up the Washington rotunda area skies, appropriately with many colors and a brightness of future hope and promise.

January 2021 - That was one hell of a month: from Georgia to Washington DC, and "From the mountains to the prairies to the oceans white with foam, God bless America, my home sweet home."

#### "GEORGIA ON OUR MINDS"

All Democrats should be ecstatic about the results of the national election. Happily we have come to the end of the Trump era!!!! There will be a rational occupant of the White House and our party will control both houses of Congress.

In our home state, however, there is much less to be cheerful about. Florida has turned deep red & the top officials of our state government show little regard for our people. It would be difficult, with the possible exception of Kentucky, to find a pair of Senators as unprincipled as Marco Rubio & Rick Scott. The first of whom is a devious hypocrite and his partner, when confronted with charges of Medicare fraud, took the Fifth Amendment more than 60 times. Then, there is Governor DeSantis, a clone of his mentor, the departing Don, who uses the same tactics.

The Communications Committee feels that it doesn't always have to be that way. We look at our neighbor, which turned from red to blue and whose voters caused the Senate to flip. We keep thinking of that Hoagy Carmichael standard, because Georgia is really on our minds.

If they can do it, why not Florida?

Let's all work hard to make that happen.

## **ASSAULT ON AMERICA**

**January 10, 2021**

**Dear Editor,**

**We are writing this letter to denounce the assault on our Democracy, on January 6, 2021 in the Capitol building in Washington DC.**

**Our former president Donald J. Trump, was instrumental in inciting a riot or insurrection which occurred on that day. With the assistance of Twitter, he summoned his base to a rally in Washington DC whereupon he told them “March to the DC Capitol building and I will meet you there”. A few weeks prior to this incident, he warned us, that *something wild would happen that day. We did not believe him.* Did we even take necessary precautions, in knowing that he had been dealing with the Extreme Right base of his followers?**

**A mob stormed into the building, smashing windows and doors, stealing and destroying governmental properties, looking for House Speaker, Nancy Pelosi to assassinate her. Looking for Vice President Mike Pence to hang by the neck. I am left stunned, asking “How did we get here?”**

**For four and a half years, this president has defined his mission. He had no use for our Constitution; no real understanding of it and no desire to do so. He has manipulated the three branches of government to his advantage as well as, the Republican Party. His goal (if he were to win in the 2020 general election) was to get rid of all that surrounded him and declare himself Supreme, as is customary of all dictators. He tried every trick in his book to delegitimize the election. He failed, and thereby caused this catastrophe, where five people died.**

**I have chosen to recount the above, to make a point. We are all aware of this event but, ignore our participation. WE are accomplices (unwitting or otherwise) in this event. Why? As Democrats, we all knew who he was. He revealed himself to us, so often. We have unfortunately, become complacent. We so often, turn a blind eye to almost everything. We too often, choose just anyone to represent us. Our values are misguided; our faith in ourselves and others is almost non-existent. For all sorts of reasons, we do not hold people accountable. We have allowed ourselves to excuse or ignore prejudice, and for hatred to involve itself in directing our path. Yet, we then, wonder why.**

**January 6, was a wakeup call, for us to open our eyes, stand tall, and get involved!**

**Contact your elected officials; request their newsletters! Hold round table discussion with friends and neighbors. If we persevere, and do any or all of these, then perhaps, we may be taking the critical steps, that can help in preventing a repeat of the horrendous and cowardly acts of January 6, 2021.**

**Sincerely,**

*Mona M. Malbranche*

**Mona M. Malbranche**

## **OUR US HOUSE of REPRESENTATIVES IMPEACHED TRUMP - For a 2nd Time.**

## **CAN OUR US SENATE FIND STRENGTH and COURAGE TO CONVICT - For a 1st Time?**

President Donald J Trump was 1st impeached December 18, 2019, for “Abuse of Power” and “Obstruction of Justice.”

President Donald J Trump impeached January 13, 2021, for a charge of “Incitement of Insurrection.” It was Trump’s 2nd impeachment.

## **“No Unity Without Accountability”**

The new mantra of the 2021 Republican Party seems to be, a “Kumbaya” sentiment of putting division and old grudges behind us, and starting anew with a sense of unity, toward making a better America. I’m not sure if that rings of the old, “Make America Great Again” slogan, or if it falls more in line with the Biden words, “Build Back Better.” Either way, I’m not sure that assigning it any motto-type, catchphrase, really matters much, because if they are being said by the likes of Minority Leaders, McConnell and or Kevin McCarthy, they ring hollow to my ears.

The words of the former President and his staunchest Republican supporters, from the months and weeks before the November 3rd election to those nearly 100 days later, directly led to the cowardly attack on our US Capitol Building on January 6th. The words of then President Trump, along with those of Senators Cruz and Hawley, US House Reps Mo Brooks and Madison Cawthorn, and numerous others helped perpetrate the absolute falsehood that President Biden’s &+ million victory was fraudulent and needed to be overturned. Brooks, together with Rudy Giuliani, Trump, his children, and other alt right conservatives spoke and that January 6th rally and encouraged the seditious actions that followed, resulting in the death of a Capitol Officer and 4 other fatalities. Until Republicans can call out the words of their colleagues as leading to sedition by rally-goers, there can not be true unity between the parties.

That having been said, similar to the 1st impeachment trial, there is little chance that we will find 17 courageous Republican Senators, necessary to convict Trump of his treasonous actions, and to bar him from ever holding federal office again

A major difference this time however, is that Democrats now hold the majority power in the Senate, and we can therefore have a legitimate Senate Trial, with the timing set by new Majority Leader, Chuck Schumer. As opposed to the Senate trial of Impeachment 1, this February one will have appropriate, called witnesses and presentation of applicable documentation via: associated texts, emails, and video recordings.

(CONTINUED) Though a “political” Senate trial may not result in the needed 2/3 of the 100-person chamber, for a guilty verdict, it will be captured for historical documentation and analyses, and will be presented in real time for viewing by the American people. Unfortunately... those who MOST need to see this, are the same people whose beliefs are so ingrained with “ReTrumpican” propaganda, and are least likely to believe in what’s put in front of their eyes and ears. They are also the same ones who will continue espouse the hate-filled rants, that denigrate people of color, hurt the poorest families and the hungriest of children among us. These “blind Trumpers” are our anti-Semites. They disparage Muslims, victimize the LGBTQ community, blame Asian-Americans (instead of Trump) for unconscionable number of COVID-19 casualties, as well as blocking deserving immigrants at every turn.

It goes without saying, that the Republican Senators who helped lead the “Stop the Steal” movement and voted against certifying Biden’s Electoral count victory January 6th, along with those who vote not to convict, will NEVER find themselves as recipients of John F Kennedy’s “Profiles of Courage.” I for one will instead remember them as cowards who did not live up to their oath to uphold the US Constitution, nor to their recent oath to be fair and impartial jurors in the February 2012 Impeachment Trial of the disgraced, past president, Donald John Trump.

Unity with Trump-supporting Republicans? Not until such time, they take accountability for the role their party played in the election falsehoods & resulting “insurrection.” Unity? Nope, NOT in this life-time. Instead, I wish them a lifetime of “hell on earth” & beyond!

## **BROWARD COUNTY COMMISSION December 2020 NOTES**

Broward County is on the move. Investing in the future, creating sustainable job growth, and working with leading stakeholders to create a strong economy will provide opportunity for all. In the past two months several new companies have announced they will be moving their headquarters here to Broward County. I am excited to work in partnership with the Greater Fort Lauderdale Alliance to attract even more this year and will work tirelessly through all platforms to make sure everyone knows that Broward County is the place to be!

As Vice-Mayor of Broward County one of my top priorities is to encourage investment in the South Florida region by attracting top level tech and financial companies to call our community home. In collaboration with the Mayors of the City of Miami and Fort Lauderdale, I have been meeting with local officials to see how we can work together to bring investment, and good quality jobs to our community. Creating a tech corridor with a solid foundation, led by our hometown universities like FAU and NSU, will create strong job growth for years to come.

In January I made a site visit to Port Everglades to see firsthand the dock expansion, and the brand-new gantry cranes that will service the supersized Panamax cargo vessels once the projects are complete. These new cranes, which I saw up close and in person (not for those afraid of heights), will increase our port's economic potential. In addition, the port is working with Florida Department of Environmental Protection to protect and expand the mangrove habitats on site. This will help keep our water and wildlife healthy for future generations. I was honored to meet several District 3 residents who operate these cranes on a daily basis and learn everything that goes into doing their job for Broward County.

Over the past two months the brand-new Motorola public safety radio system has come online in Broward County. This replacement was necessary to protect Broward County residents in the event of an emergency. From new towers, to new radios, and interoperability with neighboring counties like Palm Beach, we are focused on providing the fastest service when every second counts. I would like to thank the whole team of Broward County Emergency Management, and all stakeholders for their steadfast support in getting this done.

It is difficult to find the words when I reflect on the three years that have gone by since the tragedy at MSD on February 14<sup>th</sup>. Our community has been forever changed by that fateful day. We miss those we have lost, continue to heal with those who are hurting, and fight for changes that will make schools safer and prioritize mental health. To all members of our community: the anniversary of this day will never get easier, but we will get through it together.

My staff and I have made staying connected with the residents of District 3 a top priority. We have been available by phone, answering questions by email, and also getting out the most up to date and accurate information available. I can be reached as always at [MUdine@Broward.org](mailto:MUdine@Broward.org) or at my office at (954) 357-7003. Follow me on social media @CommissionerMichaelUdine on Facebook and @MichaelUdine on Twitter or Instagram to receive important updates and see what is happening in our community. I look forward to connecting with you. Staying connected with the residents of District 3 is a top priority. I can be reached Via Email@ [mudine@broward.org](mailto:mudine@broward.org) Via Phone: (954)357-7003, On Facebook:@CommissionerMichaelUdine , On Twitter and Instagram: @MichaelUdine - Office Hour Locations: 10:00-11:00 AM at the Northwest Regional Library, 2:00 - 3:00 PM at Tamarac Community Library, & 4:00 to 5:00 PM in North Lauderdale Saraniero Branch Library

**The Honorable Congressman Hastings**

**On Behalf of the KPIT Democratic Club, I would like to first and foremost, wish you a happy and most healthy New Year!**

**Our wish is for you to obtain blessings in all that you undertake during this 2021 Congressional session.**

**We are sending you this letter in the aftermath of the recent "domestic terrorist attack" at our Capitol Building, in Washington, DC on January 6, 2021. Though this occurred on American soil, it is still what it is. Our Nation is in peril and we fear for our nation's physical safety.**

**We condemn the behavior of the President of the United States for his role in the shameful attack on our country . This president for the past 4 1/.2 years has been inciting his base with negative, suggestive, provocative, and utterly false messaging. We had a fair and legitimate election on November 3rd. He together with a number of members of Congress, and his base, have refused to accept the outcome, despite repeated court decisions at State, Federal, and even at the Supreme Court; as a result, so many of our Congress and their staffs could easily have lost their lives.**

**We condemn in the very strongest voice, the violent words and actions of the Executive office and the resulting insurrectionists' attack in and on the Capitol Building.**

**This behavior CANNOT be tolerated. We call on the House and your brothers and sisters in the US Senate to enact NEW laws to protect all of you - and all of us, your Washington DC, Broward County, Florida, and national constituents:**

- 1.) Immediate removal of this President to prevent further harm to our national institutions.**
- 2.) Strict safety measures must be put in place or our elected officials;**
- 3.) Severe laws punishable by federal imprisonment for all those who participated in the insurrection. NO EXCEPTION! (President, administration officials, Congressmen, Police, General citizenry): i.e.: organizing, planning, assisting, of insurrection, to include physical attacks and the destroying government properties.**

**What you and the United States, have just experienced was a real coup d'état, similar to what we see in 3rd world countries - but NEVER here in the US.**

**The Democrats in Congress must regain and reclaim the power that was entrusted to them by our forefathers via the US Constitution. We cannot continue to throw caution to the wind in protecting ourselves from the clear and present danger of such domestic terrorism.**

**We are in full support of your decisions, and will assist you or your staff, in any manner, you see fit.**

**Most respectfully,**

**Mona M. Malbranche**

## A BROKEN AMERICA

## CAN IT BE FIXED?

**“The only thing necessary for the triumph of evil, is for good men to do nothing.” -attributed to Edmund Burke (as true today as in 1770)**

**The “silent majority” has become a not so silent minority. The once quiet, alt-right hate and rage has left the shadows. Service, honesty, and integrity... have been replaced with a quest for power, lying, and the bullying of those in our society who can not stand up or speak up for themselves. - seemingly at any cost. It is through the efforts of people in our club, and those of a similar mindset, at local, state, and federal levels, that offers us any hope for saving us our Democracy. WE CAN'T ALLOW THIS TO CONTINUE! SPEAK UP! GET INVOLVED!**
