

Clover® Dining

Bytes
Atlanta, GA

You have a vision for your restaurant. Time to make it real. Introducing Clover Dining.

Create five-star experiences, ensure smooth staff communication, transact more securely, and do it all fast. Purpose-built to work seamlessly with Clover Station, Clover Flex, and Clover Mini point-of-sale devices, Clover Dining empowers you to run your restaurant just as you imagined.

Customize floor plans

Add. Move. Resize. Create visual table layouts, save defaults, and change them on the fly.

Manage customers & tables

Take and modify customer orders in fewer taps with category split view. Manage changing guest counts and split checks with ease.

Fire away

Send orders from your Clover device to back of the house printers and display systems, and let the kitchen work their magic.

Preauthorize payments

No more card wrangling. Preauthorize payments for bar tabs and large parties. Customers keep their payment cards for the rest of their visit.

Clover Dining is built for

Hosts. See table statuses and wait times.

Bartenders. Preauthorize payments and transfer tickets.

Servers. Visual floor plans and a fast, intuitive order interface.

Managers. Controls, insights and real-time status updates.

Fast and flexible on the floor

Core features you need. Enhancements you'll love. Master customer delight with Clover Dining.

Clover Dining: Floor Plan

Clover Dining on Flex

- **Multiple employee login methods:** Swipe cards, PIN entry, or fingerprint login for a smooth start to the work day
- **Create floor plans by section** with custom table names, shapes, and capacity for up to 50 guests per table
- Purpose-built to work seamlessly on Clover Flex for **order and pay-at-table service**
- **Customer-inspired order interface** designed to let your staff take orders the way customers naturally give them
- Delight customers and keep the kitchen humming with **easy-to-add modifiers**, including required modifier selections
- **Fire orders to multiple kitchen displays** to facilitate a smooth hand off from servers to the kitchen – and back again
- **Simple check splitting** and partial payment capability reduce friction and confusion for large parties
- Enjoy additional integrated restaurant, inventory, and staff management tools with **300+ apps in the Clover App Market**
- **Multi-location tools:** For independent restaurant owners with multiple locations, aggregate sales reporting, and centralized menu updates across your restaurants

Insights from your operations

More powerful data with every customer served

Clover Dining: Floating Orders

- View **real-time table statuses** to decide how to deploy staff and when to check in with customers
- Anticipate seasonality and assess performance over time with **reporting and insights** for up to 12 months
- Filter and **segment your reporting** by revenue class, items, and more to make informed decisions about inventory
- **Data-driven employee management:** See which staff members are upselling, applying discounts, deleting already-fired items, and more.
