JOSHUA4JUSTICE.ORG

Uniting people from all backgrounds
to act for justice, build power, and
transform our community.

@JOSHUA4JUSTICE

JOSHUA has worked toward
overcoming divisions through the
creation of task forces that work with
local organizations and government
to enact change since 2004.

130 SAINT MATTHEWS ST,
GREEN BAY, WI 54301

TO GET
INVOLVED

WHO WE ARE

A group of caring individuals who are part of the local community and committed to a long-term agenda to advocate for equity.

Our mission is simple:

We want to build relationships to advance issues that align with our core values and to inspire and equip people to work together on systemic justice issues in Northeast Wisconsin.

How does this benefit you?

- **Leadership experience**
- **A network of support**
- **Professional skills**
- **Education and more**

Monthly Meetings!

Check the website for details.

Transformational Justice Task Force
4th Thursdays @ 6 PM

Housing Task Force
2nd Tuesdays @ 6 PM

Environmental Justice Task Force
in progress

Immigration efforts are in partnership with our statewide network, WISDOM, and assisting local organizations who already work in this area.

The task forces are the most active part of JOSHUA.

Transformational Justice

- Solitary confinement tour
- Efforts to close Green Bay Correctional Institution (GBCI) through town halls and vigils outside the prison
- Work to reduce mass incarceration through TAD (Treatment and Alternatives Diversion)
- Partnerships for holding prayer circles in hopes of reducing community violence

Housing

- Housing Policy Institute to gather educators and community members in one space to train on housing law, advocacy, and sharing your story
- Work with the Greater Green Bay Blueprint to Prevent and End Homelessness
- Began a subcommittee, the Brown County Housing Advocacy Fellowship, for individuals with lived experience

The task forces' goal is to meet monthly to discuss new findings to continue and advance progress towards current initiatives.

We aim to educate ourselves and the public on these systemic justice problems and to enact change in our government to reflect what is needed for the most marginalized members of our society.

This may include city and county resolutions, networking with other leaders, and get out the vote campaigns.
