How it works

1

Book & visit

Book online or call us, then pop into the pharmacy. The appointment takes around 10 minutes.

2

Close-up images

Our trained team photographs your mole using a specialist dermatoscope lens — painless and non-invasive.

3

Expert report

A UK consultant dermatologist reviews the images and sends you a written report within 24–48 hours.

Why choose this service?

- ✓ **Consultant-led** — reviewed by leading UK dermatologists
- ✓ **Fast** — 10 minutes in store, results in 24–48 hours
- ✓ **Local & convenient** — no long waits for a GP slot
- ✓ **A report you can use** — take it to your GP if you need a referral
- ✓ **Follow-up support** — if a mole is of concern, you'll get a call to talk through your report and next steps with your GP or a dermatologist

Know the warning signs: ABCDE

- A Asymmetry** — the two halves look different
- B Border** — irregular, ragged or blurred edges
- C Colour** — uneven, several shades or colours

- D Diameter** — larger than 6mm (a pencil eraser)
- E Evolving** — changing in size, shape or colour, or itching/bleeding

Noticed any of these? Book a check. If a mole is bleeding or changing quickly, contact your GP.

Who is it for? Anyone with a new mole, a mole that has changed, or a spot that just doesn't look right — and anyone who wants peace of mind about their skin.
