Exceptional Beauty. Effortless Performance.

The exquisite allure of Canada Brick™ on your project is a bold expression of your unique vision. With its rich palette of colours and strict adherence to CSA and ASTM standards, our clay brick products enable you to create unique designs; transforming your next project into a signature statement for generations to come.

In addition to aesthetics and strength, Canada Brick products are a perfect choice to help your projects achieve LEED® credits in several categories. All-natural clay bricks have an exceptionally long life cycle, do not emit ozone-depleting substances, and can be manufactured virtually waste-free.

A solid foundation built by Canada Brick.

Canada Brick

Effortless beauty & performance.

The beauty of a Canada Brick home is a clear expression of your distinct personality. Choose from our wide colour range – from bright whites, to traditional red and earth tones, to dramatic darks. And have your pick of straight edges or tumbled and textured styles to create a statement that truly reflects your personal style. Design your dream home with our quality brick that generations will enjoy.

Beautiful.
Sustainable.
Durable.

Let our brick do the work.

Brick offers so many inherent benefits to homeowners, from reduced regular expenses to higher resale down the road.

Once you choose premium brick like ours, you really can relax – knowing the beauty and value of your brick home will last a lifetime.

Other exterior cladding can be costly to maintain and repair due to weathering, fading, and chipping.

Brick, however, is virtually maintenance free, with no re-painting, refinishing, patching, or regular cleaning required.

With superior fire protection, energy efficiency and moisture protection, a brick exterior can help you save on insurance, heating and cooling expenses and costly repairs. And beyond all that, your beautiful brick maintains its good looks for life.

Now that's worry and work free!
