The I24 Breaks Ground with Inspiration4

Members of The Inspired 24 recently attended the ribbon cutting ceremony for the new Inspiration4 Skills Training Complex hosted by Space Camp USA and the US Space & Rocket Center in Huntsville, Alabama, on May 15, 2026.. The event celebrated the opening of the innovative new facility designed to inspire and train future generations through immersive space and leadership experiences.

As part of their support for the mission of the complex, The Inspired 24 proudly donated a commemorative bench that will be displayed inside the facility for visitors and campers to enjoy.

During the celebration, members of The Inspired 24 had the exciting opportunity to meet Inspiration4 astronauts Jared Isaacman and Chris Sembroski, both whose leadership and passion for space exploration continue to inspire audiences around the world.

Guests attending the event were also invited to experience the facility's new attractions firsthand, including the high ropes course and cutting-edge virtual reality missions that simulate the challenges and excitement of space travel.

The Inspired 24 is honored to have participated in this milestone event and looks forward to supporting future opportunities that encourage education, exploration, and inspiration for the next generation.

I24 member Dr. Eiman “Phoenix” Jahangir also made a donation in support of the training facility that allowed him to have a plaque at several hydration stations.

In support of MoonDAO, I24 member Bob “Scout” Barnum performed the ribbon cutting for the organization’s donation. MoonDAO was generous enough to be able to provide funds to the training facility and received a plaque on the wall near the I24 bench.

The Inspired 24 thanks everyone who helped support the organization's mission of creating spaceflight training opportunities for future generations of space explorers. Please consider joining us again in Huntsville, AL for the 2026 Space Camp Alumni Reunion, July 10-11. **You don't have to be an alumnus to attend. [CLICK HERE FOR INFO!](#)**

This Year's Weekend Event Highlights Will Include:

Friday: Hall of Fame Dinner - An elegant evening honoring the 2026 inductees: Mark Dreiling, Damon Feltman, Jasmin Moghbeli, and Julie Savage, beneath the iconic Saturn V rocket.

Saturday:

- Town Hall – Hear updates and engage in meaningful conversation
- Astronaut Lunch – A once-in-a-lifetime opportunity to dine with a space hero, Chris Sembroski
- Space Camp Activities – Hands-on experiences for all ages including but not limited to Inspiration4 Skills Training Complex – Explore the newest training facility
- Movie Night Under the Saturn V – End the day with a family-friendly movie night in an awe-inspiring setting
