Tapping into the strengthened economic triangle

MEETING THE CHALLENGE OF DEVELOPMENT PRESSURES

- Protecting agricultural land and minimising loss of pastoral land to urban development
- Ensuring urban development is sympathetic to the natural environment
- Balancing population growth with the capacity of infrastructure and services to support it, particularly ensuring access to clean and secure water supplies
- Developing innovative solutions to manage environmental impacts

MEETING THE CHALLENGE OF DEVELOPMENT PRESSURES

- Expanding local employment lands to create new local jobs
- Enhancing tourism opportunities
- Maintaining the township atmosphere
- Developing local employment and social opportunities to encourage young people to stay
- Ensuring affordable housing and improved transportation options are provided

MURRUMBATEMAN

- Protecting the growing wine industry from land use conflict
- Developing opportunities from the upgrade of the Barton Highway
- Tapping into new commercial, retail and industrial land opportunities
- Protecting visual amenity of surrounding farmland
- Recognising the opportunities of large parcels of land in single ownership to the north of the village and the potential for affordable housing

Murrumbateman Lifestyle

Murrumbateman sits on the Yass Plains just 30 minutes north of Canberra and 2.5 hours south of Sydney. Historically dependent on wool and beef, Murrumbateman has emerged as a first class tourism destination, with cool climate vineyards, wineries, cafes and restaurants, B&Bs, markets and other regular events..

Population: 2,846 6,328

MURRUMBATEMAN

- Promoted as being an option for ACT residential on the Capital Region Living website

A growing population

- 32% population growth between 2006 and 2011
- All age categories growing from 0-4 to 65+
- Population influx from outside the area, mainly the ACT
- The ACT predicted to grow by up to 200,000 in the next 20 years

OCCUPATION

A growing population

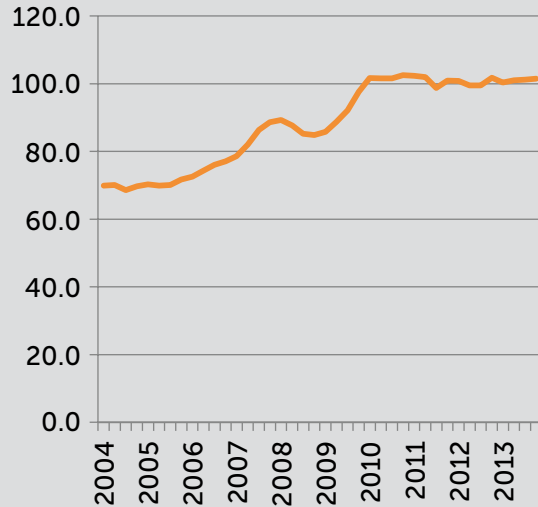

- A strong focus on professional, managerial and clerical/administrative workers
- Indicates a strong focus on commuting to Canberra

MITIGATING THE IMPACTS OF THE BARTON HIGHWAY BYPASS ON MURRUMBATEMAN

- Yass experienced a 4.5% employment loss and a 16.7% loss in business turnover with 40% of businesses closing post the opening of the Hume Bypass in 1994
- Yass experienced a 10.1% increase in population between 1996 and 2006 with in-migration from Canberra that gradually compensated
- Still suffers from leakage of retail spending to Canberra – a factor due to the structure of the small town
- Small towns (up to 2,500 persons or less) are shown to be more at risk of adverse economic impacts from bypasses than medium or larger sized towns

Residential Property Price Index; Canberra

Figure 1.8 Real median dwelling prices (monthly), Perth, Hobart, Darwin, Canberra

Source: RP Data Rismark, unadjusted median price, all dwellings. ABS 2013, Consumer Price Index, Australia, June 2013, cat no 6401.

Note: Prices are benchmarked for March 2013 and adjusted to real terms using the Consumer Price Index (CPI) for each capital city. Monthly RP Data has been aggregated to quarterly data.

Addressing acute land shortages in Canberra

- Canberra's land supply shortage continues into 2012 according to *Colliers International Canberra Communities Research and Forecast Report – First Half 2012*
- The report cited 1,215 lots available in the Northern Canberra market which is a 14 per cent decline from the previous report
- This has the potential to increase undesirable land use impacts in Yass Valley if not directed and controlled

DEVELOPING A PARTNERSHIP WITH YASS VALLEY COUNCIL

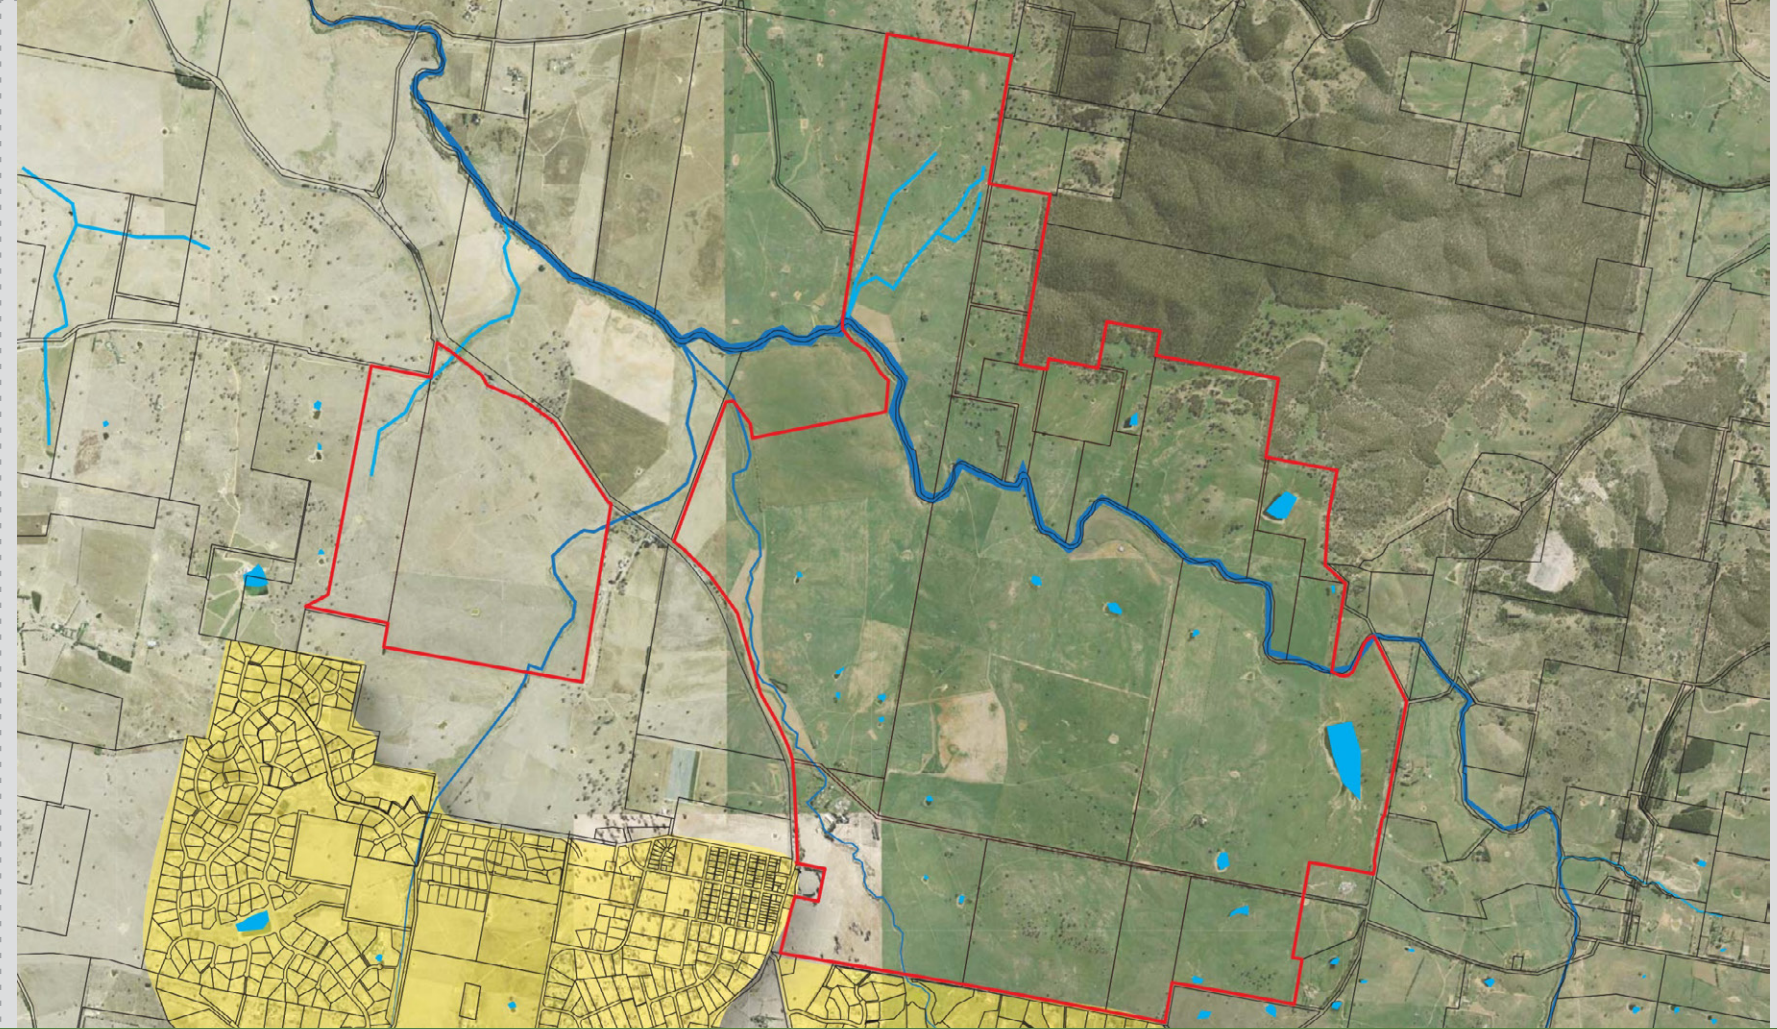

- Developing a well thought out settlement strategy that directs and manages growth
- Developing a strategy for the highway duplication to promote economic prosperity and mitigating impacts
- Promoting a sustainable settlement, with a critical mass to promote infrastructure and services delivery

DEVELOPING A PARTNERSHIP WITH YASS VALLEY COUNCIL

- Largest land area in single-ownership adjacent to a town
- Contiguous to the existing Murrumbateman settlement for quality connectivity
- Control and focus development delivering capacity for the next 20 years
- Delivering a population threshold to support provision of quality goods and services for residents

A UNIQUE OPPORTUNITY FOR SMART GROWTH

PRELIMINARY MURRUMBATEMAN SETTLEMENT STRATEGY

MURRUMBATEMAN EVOLVING FROM A VILLAGE TO A UNIQUE AND SUSTAINABLE TOWN

INFRASTRUCTURE AND SERVICES THRESHOLDS

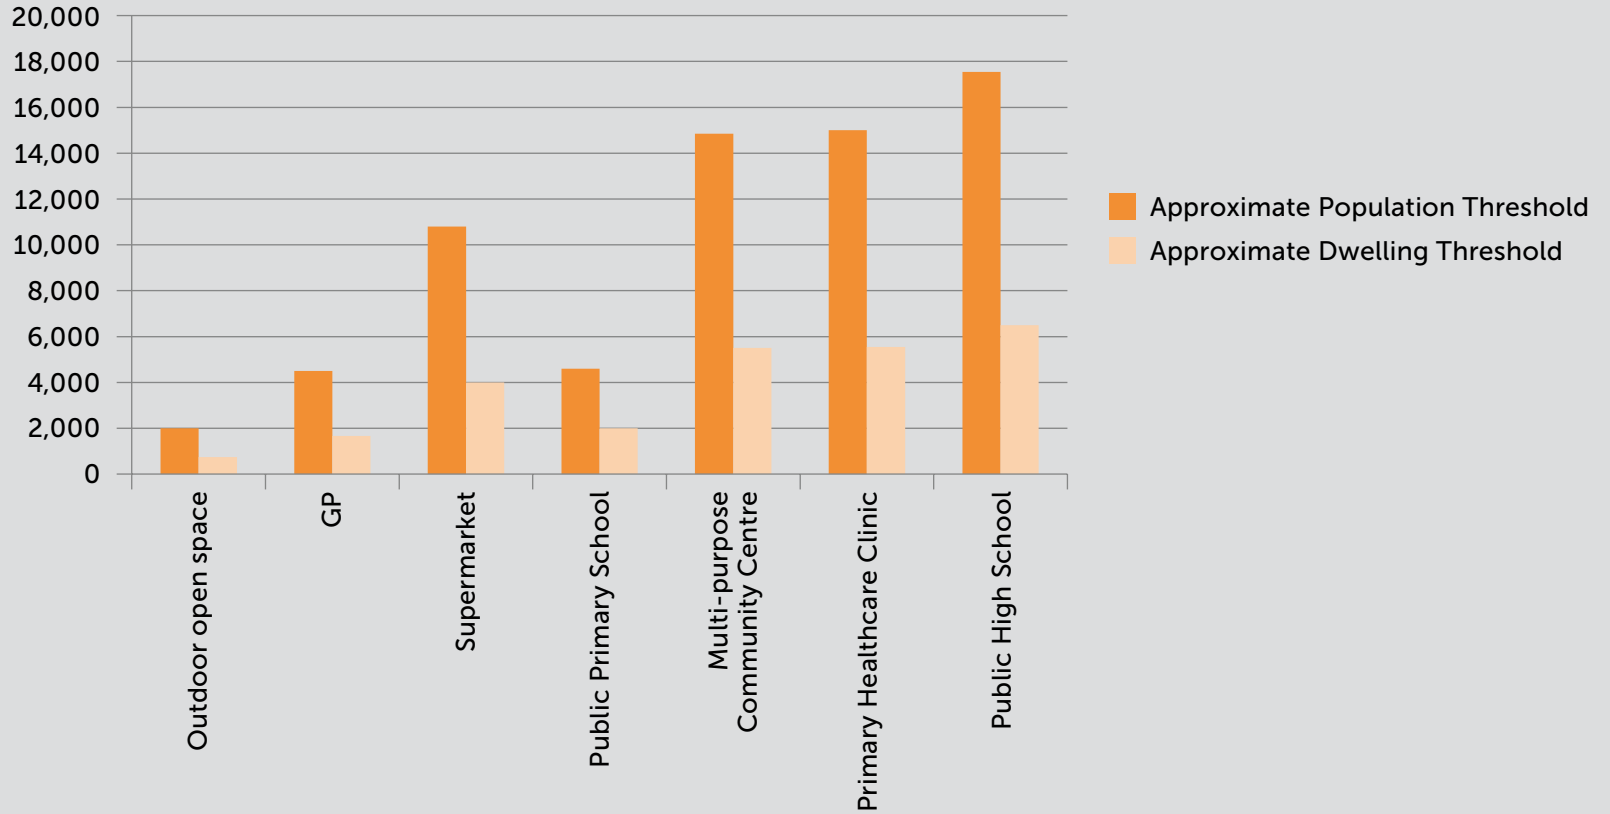

- Raising of the Yass Dam and trunk extension will allow for approximately 800 additional dwellings in Murrumbateman
- Council recognise that the long-term preferred solution will be to secure a water supply from the ACT

INFRASTRUCTURE AND SERVICES THRESHOLDS

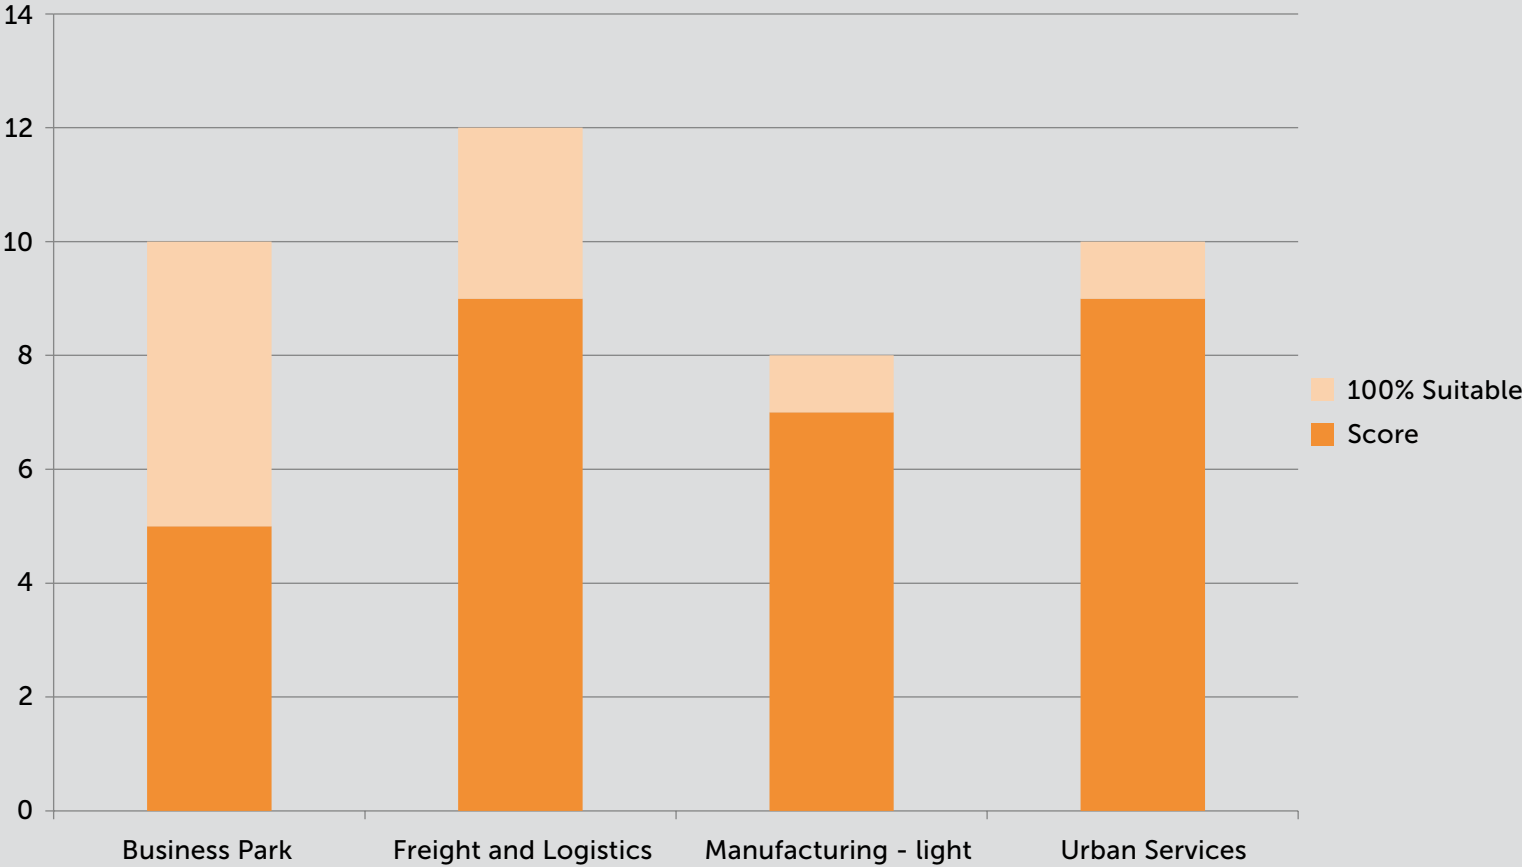

- Reaching critical mass to deliver quality infrastructure and services
- Prevent issues such as retail leakage to Canberra
- Develop local employment
