

Wednesday 13th February 2019

Hi Pru,

Thank you for what you have done regarding the Barton Highway. I will continue to fight for what is right and sensible on this important matter.

One thing I forgot to mention, and could you please pass it onto Melinda Pavey was that my father and I were interviewed by ICAC in I think 2009 during an inquiry into the Barton Highway which came about because there was so much skulduggery in relation to the process and astonishment that the stacking of meetings would result in the road going through the Town of Murrumbateman. My family the most affected land owner by the route through the town were not invited to the community consultation meeting by the RTA (now RMS). I can offer witnesses to confirm this if you need to know more.

You can probably confirm this ICAC inquiry if you are interested, it didn't lead to any outcomes that were made public.

Thank you again.

Kind Regards
