

Adjustable Multi-Tiered Shelving

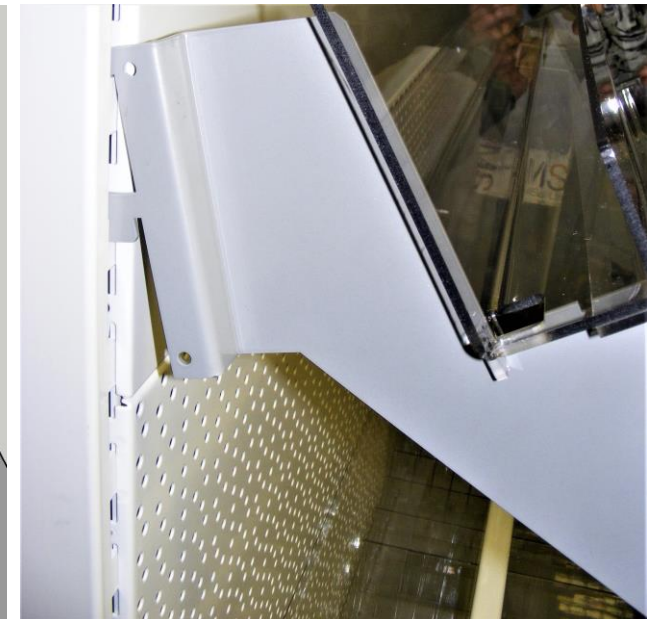

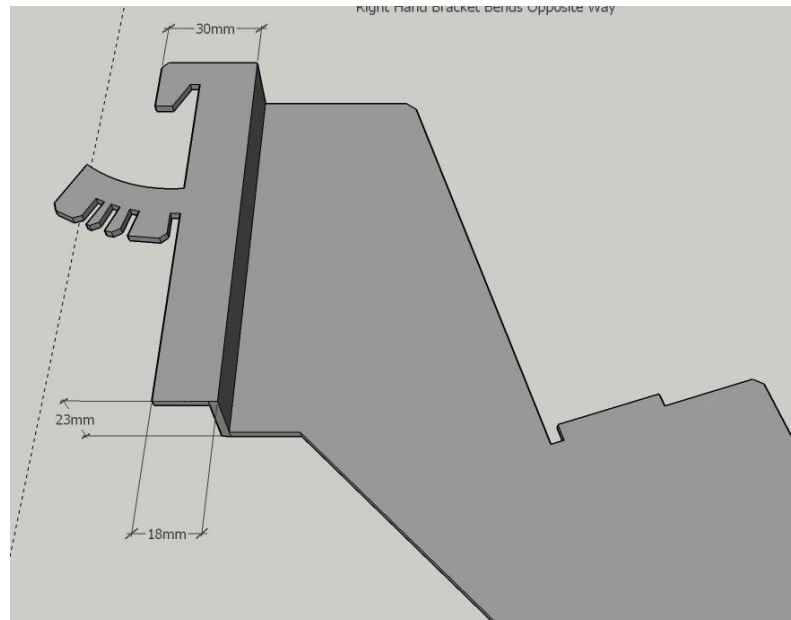

More Tiers in One Bay

Multi-Mags unique bracket design allows the retailer to maximize their merchandising space. Reduce the number of bays required to display your magazines by optimizing the shelving angles.

Multi-Mags has 4 hook positions, which allows the retailer to create the perfect curved display and ensures optimum merchandising within the bay.

Increase the tiers within the bay with our system that can be positioned at 15, 17.5, 20 & 22.5°.

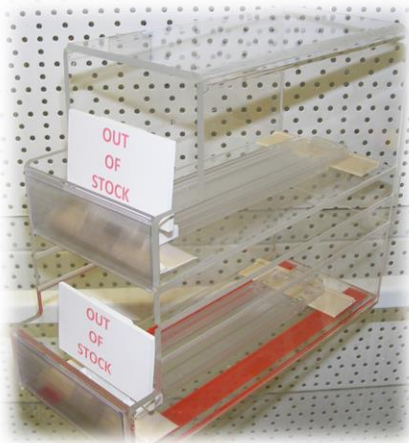

Multi-Mags is produced in PETG making it very strong and our unique fixing ensure perfect alignment with no shelf wobble.

Multi-Mags is also the most cost effective plastic Multi-Tiered solution on the Market.
