

## PEEK A BOO COCKAPOO

### Breeder Agreement

The Cockapoo is an adorable designer breed dating back to the 1950's. The Cockapoo is a combination of a Cocker Spaniel and a Poodle.

The Cockapoo is intelligent, easy to train, eager to learn, and a totally affectionate companion.

They hardly shed, forgive easily, and follow you everywhere. You will soon learn to secure that bathroom door or adjust to a furry companion.

Cockapoo's are happy, fun loving, excellent with children, and genuinely awesome family pets.

We love our puppies! They are bred, whelped, and hand raised in our home with constant attention. They are truly a part of our family.

We care where they go and what their future will be. Our requirements for purchase are thoughtfully put together.

If at anytime you are unable to keep your puppy PLEASE CONTACT US as we will keep your dog or rehome it. **Our puppies are NEVER to be sheltered or given up to rescues.**

Cockapoo's are inside dogs. They do love to be outside and they need fresh air and exercise but, **they are not ever to be housed outside or chained in anyway.** We will void our contract and reclaim the puppy if any such abuse is revealed.

Cockapoo's are not stuffed animals they need your attention. A happy pet is a tired pet. **Please increase your playtimes in a reasonable**

**manner as too much too soon can stress a puppy and perhaps should be a consideration.**

**Our Cockapoos are companion pets only and are not sold for breeding. I must have evidence of spaying or neutering within the first year.**

**If breeding is your desire please discuss this with me.**

Puppies whimper, cry, and bark. Puppies will chew everything including your favorite shoes, slippers, furniture, eyeglasses, and Legos (DANGER). If your false teeth or retainer are missing check your puppies' bed. With a new puppy you will experience unbridled and infinite love. Your life will be transformed and you will wonder what you ever did without them.

By signing this agreement I (we) agree to adhere to the above requests.
