

**ENGINEER'S DRAINAGE STATEMENT  
FOR**

**[PROJECT]**  
[PROJECT ADDRESS]  
[PROJECT ADDRESS 2]  
PCN: -----  
JCE PROJECT No. -----

[DATE]

**Project Information/Summary**

Discuss characteristics of the parcel, including size, zoning/use and location. Describe if the parcel is part of a larger development, especially if there are drainage implications, and/or within a master permitted area. Describe the project's location relative to a receiving water body or primary/secondary drainage system, as applicable.

**Project Description/Proposed Improvements**

This section should describe the proposed project, site coverage, impervious areas and quantities of paving, sidewalks, etc.

**Permitting Requirements**

This section should indicate which primary drainage basin the project is located in and the regulating authority. It should also indicate what secondary drainage system it will discharge to, if applicable.

**System Design Criteria**

List the criteria that shall be complied with (bullet point suggested).
