where design begins

Precision in every step

Laguna stands for German precision and modern manufacturing technology. At our production facilities, we work with advanced machinery and skilled specialists who have a keen eye for detail.

Durable materials, rigorous quality checks and intelligent construction ensure furniture that remains beautiful for years and is easy to install. The result is quality that you and your customers can experience every day.

What makes LAGUNA unique

Precision engineered in Germany

Crafted in Germany with exceptional accuracy and consistency. Built for lasting quality.

Installer-approved

Pre-assembled units and smart fittings make installation fast, clean and reliable.

Durability that lasts

High-quality materials ensure long-term performance.

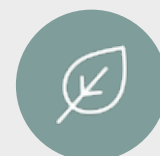

Custom-fit options

Wide range of sizes and finishes – tailored to your space and taste.

Sustainable by design

Made using eco-conscious materials and processes that reduce environmental impact.

Quality that lasts. Choices that matter.
A greener future.

SUPPLEMENTARY CABINETS

Extract from type list | For more fully co-ordinating cabinets & storage solutions, see type list | Dimensions in mm

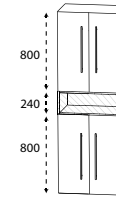

*also available in 400 mm width

 = variable depth
Additional cupboards with a reduced depth (150 - 299 mm) are only possible in combination with doors.
Complementary cabinets with a variable carcase depth (300 - 470 mm) can be fitted with both doors and drawers.
The specified depth always refers to the carcase depth, to which an additional 20 mm must be added for the decor front.
