

Extraction Arm NEX D

Dust extractor arm suitable for industries where hygiene is a top priority

The Nederman combustible dust extraction arm NEX D is equipped with an earthed ventilation hose made of FDA approved ingredients. The NEX D dust extractor is suitable for industries where hygiene is a top priority.

The NEX D dust extraction arm has concealed joints and a separate easy to mount hose. Enclosed support arm, separate hose and a stainless steel hood means the NEX arm requires little maintenance and is easy to clean.

The NEX D arm is not marked with the EX symbol since it does not fall under the scope of the directive 2014/34/EU. Even if it does not have the EX marking, it is highly suitable for use in zones 22 according to ATEX-work directive 1999/92/EC. To be used in environments with explosive dust the arm is single earthed by the helix in the hose. The hose is made of PVC with FDA approved components.

- **Little maintenance**
- **Easy to clean**
- **Double earthed**
- **Flexible arm, easy to position**
- **recommended for use in explosive environments, zone 22**
