THE 5 COLORS EVERY WOMAN CAN WEAR

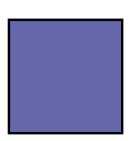

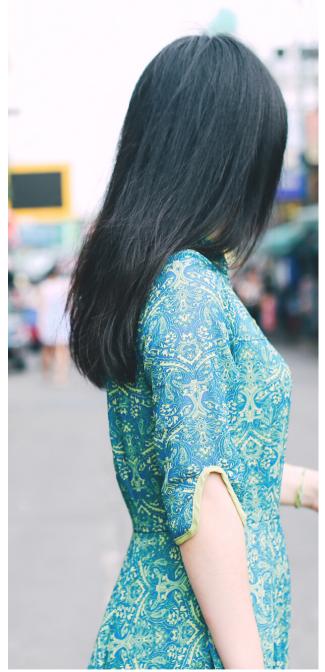

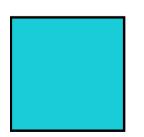

TURQUOISE EVERY WOMAN CAN WEAR IT

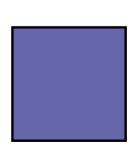

Turquoise looks just as good with white shorts in the summer as it does with gray slacks in the winter.

Not too fun and not too serious. While it pairs well with silver, it also pairs dramatically with gold. If you are looking for a bold statement, try matching your turquoise top to navy or burgundy.

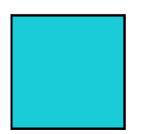

RED EVERY WOMAN CAN WEAR IT

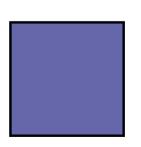

Red is always a showstopper! If you're not bold enough to wear it from head to toe, try a pop of red in your accessories - a red lip, red shoes or red nails. A rich, crimson red is what you're looking for - not too warm or dark.

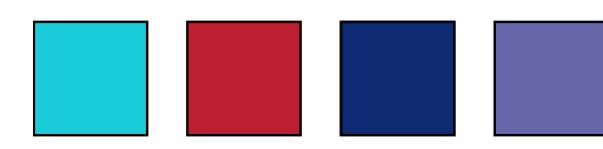

NAVY EVERY WOMAN CAN WEAR IT

Navy is a versatile color that can be worn year-round. Wear it from head to toe or combine it with lighter shades of blue. Dark denim is a navy blue that matches almost anything!

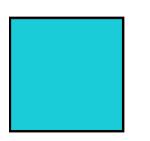

PERIWINKLE EVERY WOMAN CAN WEAR IT

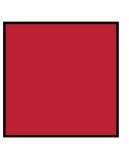

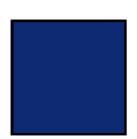

Very Peri was strong enough to earn a spot at the top as a Color of the Year recently, and we can see why. This pretty purple looks great on all skin tones and compliments hair whether dark or light.

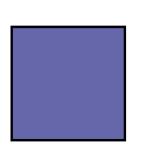

If you are not sure what to pair with periwinkle, try a shade of turquoise or gray.

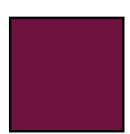

BURGUNDY

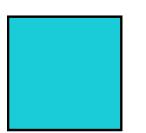

EVERY WOMAN CAN WEAR IT

The rich shade of burgundy can be complimentary to any complexion. A dark berry blouse makes a great addition to your wardrobe. If you're looking for a pop of color for your winter outerwear, try burgundy in place of brown or black.
