

**** Parts Procurement Manager (F/M/X) ****

****Expert in Supply Chain & Logistics Solutions****

As a Parts Procurement Manager with a focus on supply chain and logistics, and bring extensive experience in sourcing, managing, and delivering high-quality parts efficiently. Expertise lies in optimizing procurement processes, building strong supplier relationships, and ensuring timely delivery to meet your operational needs. Committed to streamlining the supply chain, drive cost-effective solutions and implement strategic logistics plans that enhance overall efficiency and reliability.

Let's work together to ensure your parts procurement and supply chain operations run smoothly and effectively.

Your Tasks

- **Procurement Optimization:** Streamlining procurement processes to enhance efficiency and reduce costs, ensuring that all parts are sourced at the best possible price without compromising on quality.
- **Supplier Relationship Management:** Building and maintaining strong relationships with suppliers to secure reliable and cost-effective sourcing. Negotiate favourable terms and conditions to benefit all stakeholders.
- **Strategic Logistics Planning:** Implementing strategic logistics plans that streamline the supply chain, minimize delays, and ensure the timely delivery of parts.
- **Cost-Effective Solutions:** Driving cost-saving initiatives through strategic sourcing and efficient procurement practices, helping to reduce operational expenses and improve overall profitability.
- **Enhanced Efficiency and Reliability:** Committed to improving supply chain operations, implement best practices and innovative solutions to enhance reliability and overall efficiency in parts procurement and delivery.
