Calming Comfort™

COOLING KNEE PILLOW

Get Acquainted with your Calming Comfort™ Cooling Knee Pillow

Your new Calming Comfort™ Cooling Knee Pillow is made with premium memory foam. Just as with any new foam product you may notice a slight fresh foam odor after opening. This is normal and will dissipate within 24 hours. If necessary, place the pillow in a well ventilated area to allow the foam to air out.

You may find air bubbles or some unevenness on the memory foam. Please note these are typical characteristics of the memory foam manufacturing process, the performance and life of your Calming Comfort™ Cooling Knee Pillow will not be affected.

Using your Calming Comfort™ Cooling Knee Pillow

Simply insert the knee pillow above or below your knee and sleep on the side most comfortable for you. Experiment placing the knee pillow in different positions along your leg to find the most comfortable location.

NOTE: This pillow takes time to break in and for your body to adjust to the new sleeping position. We recommend taking a few nights to get accustomed to using a knee pillow.

Caring for your Calming Comfort™ Cooling Knee Pillow

Always use and store your Knee Pillow with the included pillow case. The pillow case is machine washable, gentle cycle with cold water. Allow pillow case to air dry after washing. Do not machine dry or iron.

NOTE: In order to remove or insert pillow from pillow case, squeeze the memory foam core. Gently slide the pillow case off or onto the pillow. Adjust the pillow case before closing the zipper. The inner memory foam can be spot cleaned with water. Do not machine wash or submerge in water. Allow memory foam to fully air dry.

Multi-Position Use
