LED LIGHT TOWERS

WITH

SITE SECURITY & INTELLIGENT MONITORING

ELECTRIC LIGHT TOWER + SECURITY

- Mounted Security Cameras with Intelligent Monitoring
- Easy maneuverability with wheelbarrow-style base and handles
- Forklift pockets and four lift points
- Rotating mast
- Heavy duty galvanized, multi-staged mast
- Four multi-positional 320 W LED lamps
- 15A/120V power for single unit
- 30A/240V power, series of 1-4 units run off each 30A receptacle

SOLAR HYBRID LED LIGHT TOWER + SECURITY

- Mounted Security Cameras with Intelligent Monitoring
- Environment Friendly --> solar energy combined with DC generator
- Ideal for 24/7 operations --> construction, mining, oil & gas
- Extremely bright LED --> 102,000 lumens
- 90% fuel savings compared to conventional diesel light towers
- Reduced CO2 emissions and less noise pollution
- Ideal for use in residential areas and noise sensitive locations
- Fully automated technology, lights turn on/off at sunset/sunrise
- Reduced labour costs and spillage --> refueling only once every 30 to 45 days instead of every 2 to 3 days with conventional light towers.
- Operational DSE interface for remote operation --> engine and fuel level monitoring, GEOfencing with GPS positioning

LED LIGHT TOWERS

WITH

SITE SECURITY & INTELLIGENT MONITORING

Intelligent Visual Monitoring & Reporting

Monitor your operations efficiently - from anywhere

- Increase safety, productivity and profitability through exception-based alerting, remote visual inspections and monitoring of facilities, equipment and other critical infrastructure
- With security cameras included with the light tower, the risk of unknown incidents is mitigated. Incident investigations are aided by monitoring data, video and reports
- 24 hour monitoring delivers quick responses
- Customer can monitor site live using remote devices - laptops, mobile phone
- **Replace expensive security guard services with efficient 24 hour site-wide monitoring and alert coverage**
