

The Blu Cru
Sustainability Development Internship
Philadelphia, PA

Dear Candidates,

The Blu Cru is looking for an entrepreneurial spirited mind with an interest in sustainability. The Sustainability Development Internship position requires an eagerness to grow career start-up skills like marketing, businesses development, design, product, writing, operations, creative thinking, and supply chain. You will face real start-up business challenges and experience solving them with learnings you can carry into future interviews and new jobs.

The Sustainability Development Internship is remote and part-time. 10 hours per week with scheduled and regular in-person meetings, 1-1's, and strategy sessions throughout the summer. Position is flexible with summer vacation schedules and summer jobs. Start and end dates will be structured based on candidates school timelines.

The Blu Cru Internship Program is designed to guide career and personal growth. You will work aside career start-up individuals who share a passion for growing a business from scratch and getting creative about how to design life personally and professionally. Internship goals are collaborative but key outcomes are:

- Success story examples from the experience
- Enhanced network for future job opportunities
- Increased sustainability knowledge and awareness
- Preparedness for life after college
- Greater understanding of own strengths, weaknesses, and department interests.

Lastly, interns will need to be aligned with Blu Cru's value system: Honesty. Teamwork. Resilience. Excellence. Family. Please send resume to the email below if interested in the position. We will be in touch.

Thanks!
