Administrative Foreman - Tyrone McCloud

November 7, 2024

This notice is to extend the boil water notice you received on Tuesday, November 5, 2024. The boil water notice will end Monday, November 11. The extension is due to more water main breaks in the area. As a result, testing was not able to be done. Testing will be done Thursday November 7 and is expected to be tested Friday, November 8th pending negative test results. You will be able to resume using your tap-water as usual.

The boil water notice is a precautionary measure only. This does not mean that your water is contaminated or unsafe to use. It is advised to boil the water if you plan to consume it.

If you have any other questions or concerns, please contact Beecher metropolitan district at 810 787-6526.

Sincerely,

Tyrone McCloud
Superintendent
