

Peugeot 208. Engine Compartment.

Engine coolant. Check the minimum and maximum lines. Top up if necessary.

Windscreen Washer bottle. Visual check and top up if necessary.

Engine oil filler cap. This is where you top up the engine oil when required.

Brake fluid reservoir. Check the minimum and maximum top up if necessary.

Oil dipstick. Take out the dipstick and wipe with a lint free cloth. Re-insert and take out again. Check the minimum and maximum lines. Re-insert and top up if necessary. DO NOT overfill.

Check when the engine is cold and standing on level ground.

DO NOT drive the car without enough oil as you will cause major damage to the engine.
