Job Title: Injection Mold Production Manager

Job Type: Full-time, Salary, Exempt, On-site

Job Location: Prosperity, SC

Job Description:

The injection mold production manager will manage and oversee production from the injection mold machines, including creating production plans, coordinating workforce plans with the HR department, training machine operators, and maintaining injection mold machines in good shape.

Your duties will include:

- Create schedules to run injection mold machines according to the overall assembly and production requirements.
- Coordinate with the HR department to place appropriate operators, technicians, and assembly workers for injection mold production.
- Create daily reports on injection mold production results.
- Run and monitor the cycle time reduction program.
- Prepare needed materials such as labels, QR codes, and trolleys.
- Record defects from the injection mold machines and resolve issues by assigning appropriate technicians in a timely manner.
- Examine molded products from each machine to verify conformance to specifications.
- Keep work area equipment clean and in accurate working condition.

Your qualifications are as follows:

- 5 + years of experience in Manufacturing involving injection mold machines.
- Bachelor's Degree in a related field
- Bilingual: English and Korean (Fluent)
