DJH AGGREGATE RFP

Request for Proposal by Progressive Tender® in the County of Vermilion River, AB

Conditional Sale – Aggregate Potential

NE 22-49-4-W4

County of Vermilion River, Alberta

Issued on behalf of the Landowner by Progressive Tender®

OVERVIEW

- The subject lands are a full agricultural quarter currently owned and actively farmed by the landowner.
- Preliminary investigation has confirmed the presence of aggregate materials on the property.
- The lands are located in a region with established aggregate development activity.

This Request for Proposals (RFP) is intended to determine whether the scale, quality, and commercial viability of the aggregate present is sufficient to justify a sale at a value exceeding agricultural market levels.

The landowner is prepared to consider a sale only where aggregate potential is confirmed through further due diligence and reflected in the purchase price. If this threshold is not met, the landowner intends to retain the lands for continued farming.

This is not a conventional land sale. It is a conditional, investigation-driven process intended for experienced aggregate producers capable of evaluating and advancing a potential resource.

This RFP does not constitute an offer to sell.
