FURNISHING A BETTER WORLD[®]

one world

When we opened our first store in 1986, we made two promises. The first to you, our customers, assured that we would offer the finest home furnishings from artisans across the globe — products of quality that would endure and grace your home.

The second promise spoke to our global commitment to the environment. Understanding that the endangered rainforests are home to two-thirds of the world's plant and animal species, we made a promise to never use woods from the rainforests, and only use natural materials from renewable and recycled resources.

We remain committed to that early vision, and to those promises. When you shop at Arhaus, you can feel confident knowing that our pledge to protect our world is reflected in everything we do.

For your world. And for ours.

COPPER ARABESQUE DINING TABLE

Copper and iron, strength and grace, forged with ancient techniques for today's lifestyle. Three thousand individual hammer marks on our copper top glint in the light, and on the edge find the outline of a butterfly, the trademark of the family workshop where these tables are made exclusively for us. Made one at a time, no two tables will ever be exactly alike. Set atop the hand-forged wrought iron base, this table does double duty as both the dining room table and fine, glimmering sculpture.
