For daily cleaning, simply wipe the surface with a damp cloth and dry thoroughly. Always be sure to attack spills immediately and use placemats, coasters and felt pads beneath objects to protect the finish. ### ❖ inspiration

The Bentley Bedroom was inspired by the Campaign style of the 18th and 19th centuries. The original Campaign designs were crafted for the gentlemen-officer class of the British Army. With sea voyages that typically lasted over three months and journeys that ranged from tropical jungles to scorching deserts, ease of transport and assembly were essential considerations in the design.

The officers, accustomed to the best, required that their traveling furniture suit their style. Thus, the living room and bedroom suites that graced their tents would also be perfectly suitable in a fashionable London townhouse.

Campaign furniture helped make life "under canvas" feel like home. In a modern-day sense, this collection can do the same for you. Of course, you can't fold the Bentley bedroom for easy transport, but the concept remains the same: functional details help define successful style. Details like brass hardware and rich wood finishing capture the true spirit of Campaign days.

### ❖ design

- The Bentley style exemplifies modern-day Campaign, with its rich wood finish and decorative brass brackets.
- This is one of the biggest bedroom collections we offer - you can easily outfit an entire room (or two!) in Bentley style.
- Size is essential; each piece is substantial, but not too big for most bedrooms.
- Made of solid Mindy wood and Mindy veneers; a wood that is indigenous to Indonesia and has a grain and hardness similar to ash and oak hardwoods.
- 7-step hand finish is sanded and distressed before applying coats of stain, toner, lacquer and wax for an intense and beautiful patina.
- The entire piece is finished - even the inside and bottom of each drawer - as a sign of top quality craftsmanship.
- All hardware is solid brass, which has been sand cast and acid washed to create a genuine antique look.
- Case frames are joined with the traditional mortise-and-tenon technique for enhanced support.

#### BED

- Decorative wood slats are overlaid on the headboard to enhance Bentley theme.
- Side rails bolt into the head/foot rail with 8 strong bolts (two at each corner) to ensure structural stability over time.
- Support slats are attached to webbing so that they will not shift over time.
- These slats are also easy to transport and set up - simply unroll like a sleeping bag onto frame.
- Adjustable metal support foot is included for added bracing in the center.
- The back of the headboard is fully finished so the bed can float beautifully in the bedroom or on the showroom floor.
