

People Bridge- **EMPOWERING LEADERS IN KENYA TRIP**

August 20–25, 2025

A focused opportunity to impact lives through entrepreneurship and faith.

"The best part? It's not about us doing more — it's about multiplying through others who are already leading the way."

Why This Matters Now

This trip isn't just another mission — it's a multiplier.

We're equipping and encouraging local leaders who are already reaching their communities. For the first time, our Uganda staff will be taking the lead in Kenya — training, coaching, and launching new Work for Life curriculum.

- Uganda team leading 3-day training with Kenya partners that I have helped bring together.
- Launching multiplying entrepreneurship training with 25+ participants from 5 organizations.
- Seeding new microloan groups for sustainable business growth.
- Lifting the burden off of us so we can focus on partnerships and expansion
- Living out our mission: encourage and equip others to fulfill their God-given dreams.

"We're no longer carrying the whole weight — we're empowering leaders to carry it themselves."

We're Just The Bridge

“People Bridge exists to encourage and equip others — not by doing all the work ourselves, but by bridging the right people together and letting local leaders lead.”

This year alone:

22 part-time and full-time staff across Kenya, Uganda, and South Africa

Over 400 local leaders equipped through Work for Life job training and mentoring

Two Microloan groups launched, bringing dignity and accountability

Strategic partnerships formed with ministries and nonprofits in Kenya

A growing ripple effect from one country to another — all led by local leaders

We're working smarter, not harder — creating impact without dependency.

We don't need to be the center. We're building a bridge so others can rise

One Story, A Growing Ripple

MEET EUNICE — JUST ONE EXAMPLE OF THE FRUIT.

“Before the training, I was drowning in debt. I could barely make ends meet. I didn’t even know how to calculate profit.”

She joined a training hosted through her self-help group, where our Uganda staff led sessions on business planning, marketing, and financial literacy.

“I learned how to separate personal and business finances, reinvest profits, and delay spending on things I didn’t need.”

With just \$55, she relaunched her green grocery stand. She now tracks income, pays off debt, and teaches her kids what she’s learned.

“I’ve opened a business line. My son is learning with me. And our group is closer than ever — solving problems and celebrating together.”

EUNICE ISN’T THE EXCEPTION — SHE’S THE EXAMPLE.

This is what happens when we invest in local leaders.

The Need & The Invitation
