

Hey friend I wish that you knew Jacob as I do. He is boots on the ground in the Nairobi slums where he grew up. He runs [Oasis of Hope](#) that People Bridge funds and helps give leadership.

He loves his volunteers like Sam here. He calls out corruption and advocates for hundreds of kids.

We work hard together to stay focused on our three main values of education, entrepreneurship, and faith in Jesus. Join me in the fall 2021 or 2022 in Kenya!

## Virtual Assistants

On the other side of the world in the Phillipians is Roxy and Asher (top and bottom right). They have been working beside me weekly as virtual assistants on social media and special projects for over three years!

Here they are last week disciplining other young women online. They try to keep me on task as I run to relationships and away from clear structure and organization. Our purpose to use [People Bridge](#) as a platform to inspire leaders to fulfill their God-given dream is becoming a reality one person at a time. It is not perfect but growing.

\*\*If you have ANY needs for business or personal to hire an amazing virtual assistant please let me know and I will share my experience. Roxy and Asher love Jesus and love people on purpose.

## Encouragement Memes...

This is one project that Roxy and Asher are helping me with. We have a few dozen short stories from friends. We created memes from them on what they are grateful for at this season of life.

**Our goal is to encourage people toward gratitude, then guide them to a place and opportunity where they can look to fulfill their God-given dreams.**

I often feel like I am not doing enough or dropping the ball on something to do another thing or run to a different relationship. If you feel even close to

the same way let's encourage one another to live in grace and keep *"running the race to win the prize to which Christ Jesus has called us to."*

Love ya!

Brian and Erin Clark
