Treasurer report

Waiting on a call back from Quickbook call to fix a glitch on their end.

\$3,000 left on trailer to be paid off.

Scholarship fund- putting together protocol so kids know who to call and how to access their money going forward. Voted in approval of moving forward.

Sponsor vs Donor

We love to honor those in the community who financially support Boosters by displaying their logo in various ways around the school & fields. The board would like to clarify the difference between a Sponsor and a Donor. Sponsors give financially directly to Boosters. Donors give financially to a specific sport or club. Although Boosters acts as their “bank”, in that case, Boosters does not have access to spend money in order to acknowledge their generosity. Jessica is working with Devin Bauer to find a way to honor Donors in some way to show how much we appreciate them.

Community Member Update/Fundraiser Opportunity:

Sonya Clark owns Clark’s Corner. She runs the craft show in the spring at Zip’s. She is proposing doing a craft show at Lakeside High School as a business and fundraiser for LHS. Students would volunteer to help crafters unload cars prior to the event and then load cars after. Possibly Nov 21, 28, or Dec 5. Timeline requires setting date and inviting vendors 4-6

months prior to event. Boosters voted to pursue scheduling the craft show and attempting to find a date.

Miss Lakeside Scholarship Association

Exciting opportunity for Lakeside girls. There will be a parent April 18th. They will participate in an interview panel in the morning and then family and friends are invited to a show which includes an opening dance, speech, impromptu question, talent, and composure walk. Miss Lakeside will be announced then and scholarship goes to that girl. 7 sophomores/juniors are currently enrolled.

Capital levy

Steve Robison is a committee member for the capital levy and he updated us on the vote coming in hopefully April which would possibly replace the high school roof, heating/air system, security cameras, and/or track. It would cost \$6M for the next 5 years after 2027.

Next meeting is March 11, 2026 at 6pm in the high school library
