Please provide an explanation of the proposal and a justification for the funding requested:	Mics would be used for recording Correia Admin Updates, Student News, PSAs, Instructional and Training videos. We are currently using camera mount microphones which are highly susceptible to echo and background noise which create a low quality product.
Please provide details re: how this proposal will be implemented, and elaborate on why the costs as proposed represent the best implementation.	Admin updates are recorded once a week for the student population. We are also working towards a weekly student news program as opposed to disruptive PA morning announcements. We are working for this to occur at the start of the school year. Mics would also be available for checkout for video production and ASB classes.
Cost \$:	\$398.68 On-sale
