 - If Team A bats first, they are entitled to receive 16 Overs maximum and Team B would be entitled to 20 Overs.
- If Team A bats second, Team B gets 20 Overs and Team A will chase runs in 16 Overs (4 Overs LESS than Team B)

Terms and Conditions

Batting side delays the game

- In normal circumstances, new batsman should be ready to come to the crease within 90 seconds of the on-ground batsman getting out. Umpire may use discretion for special situations such as batsman getting out on the first ball however in all cases batting line up should be ready to enter the ground at any time
- On observation of any delays, the Umpire and match officials shall do the following:
 - At the first instance the umpire will warn the batting captain and indicate that this is a first and final warning. This warning shall continue to apply throughout the innings.
 - If there is any further delay by the incoming batsman, the umpire shall award 5 penalty runs to the fielding side. The penalty runs are added to the score card as "Penalty Extras".
 - The Power-Play is one continuous slot of 6 Overs where only 2 fielders are allowed outside the circle.

Bowling side delays the game

- The umpires shall penalize the bowling side when they exceed the allotted time to complete the innings as follows:
 - Team A bowling first must complete 20 Overs. However, if the bowling team goes over by 16 minutes – than they have to chase the score in 16 Overs being bowled by Team B.
 - Team A bowling second is expected to bowl 20 Overs in 90 mins – If at the end of 90 mins team A was able to bowl 16 Overs only – Team B will be awarded 12 runs per over, which to be added to the score at the end of 16 Overs.
 - Umpire shall inform the bowling side if they are running behind schedule and declare "penalty time" once the stipulated time is completed.
 - Umpire shall inform the teams of the penalty runs and report it to the scorer.

Terms and Conditions

Delayed or Interrupted Matches due to ground, weather, or light conditions

- The objective shall always be to rearrange the number of Overs so that both teams have the opportunity of batting for the same number of Overs. A team shall not be permitted to declare its innings closed.
- A minimum of five (5) Overs must be bowled to the side batting second to constitute a match. The calculation of the number of Overs to be bowled shall be based on an average rate of fifteen (15) six-ball Overs per hour, (4 minutes per over), in the total time available for play. If a reduction of the number of Overs is required, any recalculation must not cause the match to be rescheduled to finish earlier than the original cessation time. This time may be extended to allow for one extra over for both teams to be added if required.
- The team batting second shall not bat for a greater number of Overs than the team batting first unless the latter has been all out in less than the agreed number of Overs. Fractions are to be ignored in all calculations regarding the number of Overs.
- For details on methods to calculate for interruptions, please refer to the following section Calculation Methods for Delays/Interruptions

Game Result

- A result can be achieved only if both teams have had the opportunity of batting for at least five (5) Overs, unless one team has been all out in less than five (5) Overs or unless the team batting second scored enough runs to win in less than five (5) Overs. If, due to suspension of play after the start of the match, the number of Overs in the innings of either team has to be revised to a lesser number than that originally allotted (minimum five (5)), a revised target score (to win) should be set for the number of Overs which the team batting second will have the opportunity of facing. This revised target score is to be calculated by using (the professional edition Coda 2.1) Duckworth/Lewis method. The target set will always be a whole number of runs and one (1) less will constitute a tie.
- All matches, in which both teams have not had the opportunity of batting for a minimum of five (5) Overs shall be declared NO RESULT.
- If the innings of the side batting second is suspended (with at least 5 Overs bowled) and it is not possible for the match to be resumed, the match result will

Terms and Conditions

be decided by comparison with the D/L 'Par Score' determined at the instant of the suspension by the manual Duckworth/Lewis method. If the score is equal to the 'par score' the result is a tie. Otherwise, the result is a victory, or defeat, by the margin of runs by which the score exceeds or falls short of the 'Par Score.

Tied Game

- In the regular season; if the match is tied – it will remain tied with points being split between the two teams.
- In the playoffs season: If the match is tied a Super Over is played. The Super Over involves each team facing one over (unless all out earlier), and the winner shall be the team that scores the most runs from its one over innings.
- Scroll below to review "Procedure for the SUPER OVER"

Protective helmets and equipment

- It is recommended that all players should wear a protective helmet and other gears whilst batting or if fielding close to the wicket or acting as wicket keeper. Captains are responsible for enforcing the regulation.
- Any player who is under the age of 19 must wear a protective helmet with a face guard or grille whilst batting, acting as a runner for a batsman, or if fielding close to the wicket.

Substitutes

- The umpires shall have discretion, for wholly acceptable reasons, to allow a substitute for a fielder, at the start of the match or any subsequent time. The substitute can be family member or friend
- If a fielder fails to take the field with his side at the start of the match or at any later time, or leaves the field during a session of play:
 - umpire shall be informed of the reason for fielder's absence, fielder shall not thereafter come on to the field during a session of play without the consent of the Umpire
 - Umpire shall give such consent as soon as practicable.
- If the player is absent from the field for longer than 8 minutes:
 - The player shall not be permitted to bowl in that innings after his return until he has been on the field for at least that length of playing time for which he was absent.

Terms and Conditions

- The player shall not be permitted to bat unless or until, in the aggregate, he has returned to the field and/or his side's innings has been in progress for at least that length of playing time for which he has been absent or, if earlier, when his side has lost five (5) wickets.
- The restriction in above shall not apply if the player has suffered an external blow (as opposed to an internal injury such as a pulled muscle) whilst participating earlier in the match and consequently been forced to leave the field. Nor shall it apply if the player has been absent for very exceptional and wholly acceptable reasons (other than injury or illness). Wholly acceptable reasons should be limited to extreme circumstances and should not include what is commonly referred to as a 'comfort break.
- In the event of a fieldsman already being off the field at the commencement of an interruption in play, through ground, weather or light conditions, he/she shall be allowed to count any such stoppage time as playing time, providing that he/she personally informs the umpires when he/she is fit enough to take the field had play been in progress.
- NUMBER OF OVERS: Four (4) over per bowler.
- NO BALL: A bowler shall be allowed to bowl one short-pitched delivery per over (not being a wide or no ball).
- FREE HIT AFTER FOOT-FAULT NO BALL: The delivery following a no ball called for a foot fault, shall be a FREE HIT for whichever batsman is facing it. If the delivery for the free hit is not a legitimate delivery (any kind of no ball or wide ball) then the next delivery will become a free hit for whichever batsman is facing it.
- WIDE BOWLING - JUDGING A WIDE: Any ball pitching outside leg stump and going down the leg side will be signaled as a wide. Line will be drawn to judge to off-side wide.
- DELIBERATE BOWLING OF HIGH FULL PITCHED BALLS: If the umpire considers that a high full pitched delivery which is deemed dangerous and unfair was deliberately bowled, the caution and final warning process shall be dispensed with. The umpire at the bowler's end shall call and signal 'no ball'. When the ball is dead, direct the captain of the fielding team to take the bowler off forthwith.
- DEAD BALL considers as dead and will repeat instead of calling the no ball or the free hit
- NEW BATSMEN DELAY: There should be no delay between the batsmen dismissed leaving the field, and the new batsman entering the field. The new batsman

Terms and Conditions

should be on the field immediately after a wicket has fallen.

DISAGREEMENT PROTOCOL

Umpires are the final authority on the ground however in case of disagreement between umpire ruling and SCC rules or any unprecedented situation, the matter shall be subject to review by match referee and SCC Management.

Procedure for the SUPER OVER

The following procedure will apply should the provision for a one over per side eliminator be adopted in any match.

1. Subject to weather conditions the one over per side eliminator will take place on the scheduled day of the match at a time to be determined by the UMPIRES. In normal circumstances it shall commence 5 minutes after the conclusion of the match.
2. If the one over per side eliminator cannot be started before the scheduled or rescheduled cut-off time for the completion of the match, it shall not be played. For the avoidance of doubt, the cut-off time for starting the eliminator will include any previously unused extra time remaining at the end of the match.
3. The one over per side eliminator will take place on the pitch allocated for the match (the designated pitch) unless otherwise determined by the UMPIRES.
4. Prior to the commencement of the one over per side eliminator each team elects three batsmen and one bowler.
5. The nominated players are given in writing to the UMPIRES and match officials.
6. The umpires shall stand at the same end as that in which they finished the match.
7. The umpires shall choose which end to bowl and both teams will bowl from the same end.
8. Each team's over is played with the same fielding restrictions as apply for a non-Powerplay over in a normal T20 International match.
9. The team batting second in the match will bat first in the one over eliminator.
10. The same ball (or a ball of a similar age if the original ball is out of shape or lost) as used at the end of the team's innings shall be used for the "extra" over.
11. The loss of two wickets in the over ends the team's one over innings.
12. In the event of the teams having the same score after the one over per side eliminator has been completed, the team that hit the most number of boundary sixes combined from its two innings in both the main match and the one over

Terms and Conditions

per side eliminator shall be the winner.

13. If the number of boundary sixes hit by both teams is equal, the team whose batsmen score the most number of boundaries from its two innings in both the main match and the one over per side eliminator shall be the winner.
14. If the number of boundaries from the two innings in both the main match and the one over per side eliminator are equal, the team which took the most number of wickets combined in both the main match and the one over per side eliminator shall be the winner.
15. If still equal, a count-back from the final ball of the one over eliminator shall be conducted. The team with the higher scoring delivery shall be the winner. If a team loses two wickets during its over, then any un-bowled deliveries will be counted as dot balls. Note that for this purpose, the runs scored from a delivery is defined as the total team runs scored since the completion of the previous legitimate ball, i.e. including any runs resulting from wide, no ball or penalty runs.

Example:

Runs scored from:	Team 1	Team 2
Ball 6	1	1
Ball 5	4	4
Ball 4	2	1
Ball 3	6	2
Ball 2	0	1
Ball 1	2	6
