SINGLE MALT WHISKY

SINGLE MALTS OF INDIA

Ancient Tamil texts, dating back to the Sangam period (300 BC – 300 AD), classify mother earth into five regions called Tinais, each being associated with its own distinct literary style, grammar, mood, subtle as well as overt form of romance, culture and even cuisine. “Neidhal”, according to this classification comprises all Oceans and neighboring regions or in short Coastal Plains and the way of living one associates with them.
