## A P A S I O N A D O

Every shot of our delicate Rum served is brimming with the full fiery passion of our Latin land, bringing a piece of our burning culture to your lips. We encapsulate the sweet essence of our rums after distillation by implementing the unique method of adding reduced sugar cane juice to our old barrels. In doing so we bring the huge concentrated flavors and dark caramel color and flavor to our rums without affecting the residual sweetness of the end product. Latin culture embraces life, and we follow this credo by embracing new techniques to bring luxury to this age old spirit.

## E X T R E M O

Our heart lines ultimately with the virgin sugar cane, the foundation upon which our culture and spirits are built. We embrace the juice and all the efforts go toward showing the extreme deep, dark colors along with the oaky aromas and robust sugar cane, honey and coffee flavors that can be achieved through the aging process. This is our Rum and it's the best we can do. ENJOY IT!

## A L T I S I M O

We hand selected whiskey barrels from the beautiful highlands in which to finish our Best Of collection of Rums. The idea being to bring our rums the unique smokey, mineral and leafy notes associated with these whiskeys. In doing so we've created an elegant aroma majestically rounded. The marriage of whiskey notes to our distilled spirits highlights the versatility our rich rums by extracting the malty finish and still remaining pure in caramel oaky flavor and mouthfeel.
