# Dooley's

The Original  
Toffee Cream Liqueur,  
made with fresh  
Dutch Cream and  
Superior Belgian Toffee

## Half the Fat of the Cream Liqueur Category Leader

Dooley's Original Toffee Cream is far from a seasonal listing. This delicious product, which needs no refrigeration but is best served chilled, is perfect for an array of summer drink and dessert sensations.

Perhaps the most surprising revelation about this super-versatile product is its ability to pair with fruits and ice creams. One of the most popular flavour combinations – always a huge hit at consumer shows, is the “Creamsicle”, made by mixing Dooley's with orange juice. Close your eyes and taste... it's a dead ringer for the iconic summer treat!
