## TALE 184 A TRUE TASTE OF CAMPBELTOWN

Campbeltown's whisky has long enjoyed a very special and long-standing relationship with Bourbon and American Oak casks. This traditional choice of wood compliments Glen Scotia's slow fermentation and small batch process, delivering underlying balanced fruit character and sweet toffee and background spice that defines our whisky. With only a very short finish in Olorosso casks, the Glen Scotia 15-year-old let's all of those classic regional traits shine through, delivering a true taste of Campbeltown.

### THE PREVAILING SPIRIT OF CAMPBELTOWN

Glen Scotia was born in a place like no other - a small town on the west coast of Scotland that was to become the 'Victorian Whisky Capital of the World'. The people of Campbeltown are stoic and proud, and our whisky has always had a wonderful way of bringing us together in times of need. Glen Scotia prevailed against the odds where some thirty other local distilleries fell. Today it **stands proudly among the last of the many**, by virtue of the community spirit that defines Campbeltown.
