

**TRAIL'S
END[®]**
**KENTUCKY STRAIGHT
BOURBON WHISKEY**

THE END of one path forms the beginning of another. This is not just our philosophy but our story. Trail's End is a true-born Kentucky Bourbon aged in charred new American Oak barrels. It then travels west to Oregon where it's finished with Oregon Garryana Oak and glacier-fed spring water. What emerges is an instant classic.

TRAIL'S END

KENTUCKY STRAIGHT
BOURBON WHISKEY

TRAIL'S END 10-YEAR KENTUCKY STRAIGHT BOURBON WHISKEY FINISHED IN OREGON OAK CASKS

A select few barrels of 10-year Kentucky Bourbon follow the spiritual path of the Oregon Trail. Here we finish our bourbon in toasted Oregon Garry Oak casks to heighten the notes of vanilla and spice. Glacier-fed spring water from Mt. Hood completes the vision of our master distiller: A rare bourbon with hallmarks of age and heritage that flourishes with a provenance of its own.

TASTE: Initial introduction of caramel, vanilla, cherry, and roasted corn with a foundation of warm, earthy notes of summer pine and high desert moss. Bitter orange and delicate hints of lilac are hidden beneath the vanilla and oak.

AROMAS: Considerably less opening bite with the introduction of Garryana Oak. Focused aromas of vanilla, caramel, and cherry, with warm summer pine at the end.

52.5% alc/vol – 105 Proof
