

CENTENNIAL EDITION SHELBY F-150 SUPER SNAKE

Carroll Shelby had a long history with performance trucks and enjoyed driving them both off-road and on the street. The Shelby Centennial Edition Ford Shelby F-150 Super Snake was designed to give serious drivers the truck they want to enjoy on the street, along with the collectability of a limited-edition vehicle. Built to commemorate the 100th anniversary of Carroll Shelby's birth, only 100 of the 800* horsepower 2023 Carroll Shelby Centennial Edition Super Snake four door trucks will be built. It's a fitting tribute to the memory of an American legend.

Based on the Lariat 4x4, 5.0L SuperCrew, the 100 Centennial Edition trucks come standard with 400 standard horsepower; and an optional supercharger boosts the V8 engine to 800* horsepower. The heavy-duty suspension and underbody of the Carroll Shelby Centennial Edition truck were built to handle the street with a Shelby by Ridetech Suspension System featuring adjustable FOX coilover shocks and new upper control arms up front while FOX adjustable Shocks, a new sway bar and track bars keep the rear in place.

The interior was completely redesigned to elevate truck ownership experience with style, comfort and utility. The truck has black stitched black leather covers with Centennial Edition logos, "race red" lighting, the official Shelby serial number and Shelby floor mats. Each truck has deep tinted windows to keep the interior cool and a ram-air-style hood. A total of 100 four-door Centennial edition trucks will be built for the US market. Visit Shelby.com for more information.

Centennial Edition Shelby F-150

800HP Supercharged MSRP ^{USD}\$136,995
(Includes 2023 Lariat 4x4 F-150 Chassis)
