

# SHELBY F-150 OFF-ROAD

# Shelby F-150 Off-Road | *Based on a Lariat 4x4 Supercrew Ford F-150*

The 2026 Shelby F-150 Off-Road marks ten years of Shelby performance truck innovation with the most powerful Shelby F-150 ever produced. Built on Ford's legendary F-150 platform, this limited-production anniversary edition is powered by a Shelby-engineered supercharged 5.0L V8 delivering 810+ horsepower, paired with a 10-speed automatic transmission and four-wheel drive capability.

Shelby engineers collaborated with top suppliers to elevate both performance and capability, including a proprietary full suspension lift and KING Race Series 2.5 adjustable shocks that provide increased travel, exceptional control, and confident handling on road or off. Upgraded Baer brake rotors and aggressive 35-inch BFGoodrich KO3 tires help harness the power.

Exclusive Shelby styling defines the exterior, featuring a functional ram air hood, painted body components, bold Shelby striping, and anniversary badging. Inside, premium Shelby-designed leather seats, carbon fiber accents, billet racing pedals, and a serialized Shelby Registry CSM plaque reinforce its exclusivity.

Limited to 600 units for the U.S. market, the 2026 Shelby F-150 Off-Road delivers legendary Shelby performance, luxury, and collectability in one uncompromising package.

## Standard Features

### Performance
