## Remembering Achille Silvestri ...

On March 1, 2014, our beloved friend Achille passed away. Achille was our newsletter editor for at least the last 12 years and every month we could look forward to seeing what new and interesting facts about the club he captured. of his pictures in the newsletter over the last 12 years. I went back through all the old newsletters and found some pictures of him to celebrate his time with us in the club.

Achille was a creative guy, I don't think I've ever seen so many variations of 4-Star 60. Almost every plane he built started as a 4-Star 60 but somewhere along the way ended up looking like a World War I fighter. He also possessed a unique skill for landing. In all the years I've known Achille I don't think I've ever seen him abort a landing and go around for another attempt. When Achille called for landing, by God, he was landing.

Goodbye my friend; we will miss you.
