

Sandmeier Reflexw Prices

Price list from 1st of January 2019.

Please note: All prices are net in EURO (conversion to POUNDS when invoice is issued + VAT) and subject to change without notice.

ReflexW 9.0: a Windows9x/XP/7/8/10-based computer program for processing and interpretation of

- **GPR (Ground Penetrating Radar)** data (reflection and borehole-borehole).
- **Seismic reflection and refraction** and borehole-borehole data.

The prices for the ReflexW program packages:

	Standard license	Academic license
REFLEXW GPR/reflection seismic 2D 2D data-analysis (incl. Reflex2DQuick). <i>The basic program for 2D processing and interpretation of GPR and seismic reflection data.</i>	EUR 1200	EUR 900
REFLEXW GPR/reflection seismic 2D/3D containing 2D data-analysis (incl. Reflex2DQuick), 3D data-interpretation (incl. Reflex3DScan) <i>The basic program for 2D and 3D processing and interpretation of GPR and seismic reflection as well as borehole data.</i>	EUR 1800	EUR 1350
REFLEXW refraction/reflection seismic and GPR 2D 2D data-analysis (incl. Reflex2DQuick) Modelling with wavefield simulation and travel-time inversion. <i>The basic program for 2D processing and interpretation of GPR, seismic reflection and refraction data.</i>	EUR 1700	EUR 1275
REFLEXW complete 2D/3D 2D data-analysis (incl. Reflex2DQuick) 3D data-interpretation (incl. Reflex3DScan) Modelling with wavefield simulation and travel-time inversion <i>The full program for the 2D and 3D processing and interpretation of GPR, seismic reflection and refraction as well as borehole data.</i>	EUR 2300	EUR 1700
Our low-cost programs for special applications:		
Reflex2DQuick	EUR 500	EUR 375
Reflex2DQuick/SeismoCross	EUR 600	EUR 450
Reflex3DScan	EUR 500	EUR 375
ReflexVibro	EUR 500	EUR 375

UPGRADE prices, this means an upgrade to new Reflexw modules		
Upgrade of the basic 2D Reflexw program for the 2D processing and interpretation of GPR and seismic reflection data to 3D data-interpretation (incl. Reflex3DScan)	EUR 700	EUR 525
Upgrade of the basic 2D Reflexw program for the 2D/3D processing and interpretation of GPR and seismic reflection data to modelling with wavefield simulation and travel-time inversion.	EUR 600	EUR 450
UPDATE prices, this means lifelong free updates of the existing license.		
REFLEXW lifelong free update service Update price (lifelong free updates) from an existing older Reflexw license (includes only the Reflexw modules of the old license, no upgrade)	EUR 500	EUR 375
Reflex2DQuick Update price (lifelong free updates) from an existing older license.	EUR 200	EUR 150
Reflex3DScan Update price (lifelong free updates) from an existing older license.	EUR 200	EUR 150
ReflexVibro Update price (lifelong free updates) from an existing older license	EUR 200	EUR 150

The academic licence prices are valid for universities and other educational or pure research institutions. The delivery is by e-mail (download) including a pdf formatted manual.

A **site licence** (unlimited number of installations and simultaneous uses within your institute) amounts the double price for each Reflexw configuration mentioned above.

A **site licence** for Reflex2DQuick and/or Reflex3DScan (unlimited number of installations and simultaneous uses within your institute) amounts the triple price for a single licence mentioned above.

We offer **free updates** for the first **five years** after purchase.
